The impact of US tariffs on India is "manageable" and won't drag economy, the rating firm said
BBB rating will cut India's borrowing costs in int'l markets

MINING MIN'S KIN

Quarry lease holders fined for norm violations

YATHIRAJU @ Bengaluru

THE Mines and Geology Department has imposed a fine of Rs 25,000 each on 26 quarry lease holders, including three leases held by M/s GMM Enterprises belonging to the family members of Mines & Geology and Horticulture Minister SS Mallikarjun in Davanagere district, for violating lease conditions.

The department's move comes after Upa Lokayukta Justice B Veerappa registered suo moto cases after an inspection in July.

SS Ganesh, brother of Mallikarjun, is a partner of GMM Enterprises, which is operating the quarries in three survey numbers (144, 145 and 148) in Hebbal village of Davanagere. At these three sites, lease conditions, including environmental clearance, are violated.

The lease holder was not maintaining a 7.5 mtr buffer zone from the periphery of the lease area, not fixing the boundary pillars and not fencing the area are the other violations. Therefore, in all Rs 75,000 fine (Rs 25,000 on each quarry) has been imposed on GMM Enterprises.

Identical violations have been found with the other 23 leaseholders in the Davanagere district, and hence a fine of Rs 25,000 each has been imposed on them also. P8

Massive cloudburst in J&K's Kishtwar

FLASH FLOODS KILL 46

People move through the debris after a massive cloudburst at Chositi village, Kishtwar district, J&K | PTI

400
Sources said 300-400 people were in the area

167
People have been rescued, according to officials

Muted I-Day celebration
J&K Chief Minister Omar Abdullah cancelled the At Home tea party and cultural programmes on Friday

FAYAZ WANI @ Jammu

AT least 46 people, mostly pilgrims, were killed after a massive cloudburst struck Chositi village in the mountainous Kishtwar district of Jammu and Kashmir on Thursday between 12 noon and 1 pm, triggering flash flood and mudslide along the route of the ongoing Machail Mata Yatra. The toll may rise as many are still trapped under the debris.

The authorities have suspended the yatra and rescue operation is on. Prime Minister Narendra Modi and Home Minister Amit Shah assured all possible Central assistance to J&K while Chief Minister Omar Abdullah decided to scale down the Independence Day celebrations planned for Friday.

Chositi is the last motorable village en route to Machail Mata temple in Kishtwar district. Sources said 300-400 people were present in the area when the cloudburst occurred. The flash floods damaged over a dozen houses, four temples, four government buildings, and a bridge that was crowded with pilgrims.

Deputy Commissioner of Kishtwar Pankaj Sharma told this newspaper that relief and rescue operation was on to find the missing persons.

NDRF, SDRF, police, and civilian administration personnel have launched rescue operation and the locals are helping in the effort.

"There was a parking lot and *langar* (community kitchen) in the area. Besides, there was a paramilitary camp in the area. Locals had also set up shops in view of the yatra," Kishtwar District Developoment Council Chairperson Pooja Thakur told this newspaper.

The *langar* camp was washed away while vehicles in the parking lot were swept by the flash flood and mudslide some distance away.

The Army pressed over five columns of 60 personnel each as well as medical detachments of Jammu-based White Corps into service to assist NDRF, SDRF, police and civilian agencies in the rescue operation.

An official said over 160 people could be rescued. Many of them had sustained injuries and they were provided medical treatment in hospitals. Some of the injured were referred to other hospitals for specialised treatment.

SC directs EC to upload list of 65L SIR deletions with reasons

SUCHITRA KALYAN MOHANTY @ New Delhi

THE Supreme Court on Thursday directed the Election Commission of India (ECI) to publish the list of about 65 lakh proposed deletion of voters in Bihar, with reasons, by Tuesday. The orders came during a hearing on the Special Intensive Revision (SIR) drive of poll rolls.

The court also directed the ECI to add Aadhaar card as an acceptable document for establishing identity, going beyond its earlier suggestion to do so. A bench of justices Surya Kant and Joymalya Bagchi said, "Transparency is needed about the 65 lakh deleted voters to enable people to seek clarification or correction." It directed the Bihar poll body to publish the detailed list of proposed deletions on the websites of the District Electoral Officers and the Chief Electoral Officer.

"It must specify the reasons for deletion such as death, migration, or double registration and be searchable by EPIC numbers." The bench also directed the ECI to put out public notices stating that individuals excluded from the rolls may submit their Aadhaar cards when filing claims for inclusion in the final list.

SC cancels bail, Darshan, Pavithra back in prison

EXPRESS NEWS SERVICE @ New Delhi/ Bengaluru

IN a major setback to Sandalwood star **Darshan Thoogudeepa**, his friend Pavithra Gowda and five others, the Supreme Court on Thursday set aside the Karnataka High Court's order granting bail to them in the Renukaswamy murder case. Following cancellation of bail, all seven accused were arrested on Thursday afternoon. "The order (Karnataka High Court) is set aside, and bail granted to the accused is set aside," said a two-judge Bench of the top court, headed by Justice JB Pardiwala and Justice R Mahadevan. The court, which had earlier reserved judgement on July 24, pronounced the order after hearing an appeal filed by the Karnataka government, challenging the High Court order granting bail to Pavithra Gowda, Darshan and five others in the sensational murder case. It may be recalled that 33-year-old S Renukaswamy, a chemist from Lakshmi Venkateshwara Layout in Chitradurga, and a fan of Darshan, was reportedly kidnapped and murdered at a shed in Pattanagere in RR Nagar on June 8, 2024. The incident came to light the next day when his body was found in a storm water drain at Summanahalli. CONTINUED ON P6

Freedom, Development & Innovation

Rethinking Karnataka's Dichotomised Development Path

BY DR. M. MAHADEVA

Karnataka is one of India's strongest regional economies, second only to Tamil Nadu in contributing to the country's net domestic product. In 2022–23, Karnataka added Rs. 11.9 lakh crore, accounting for 8.55% of the national total. With such robust economic performance, one would expect similar progress in social development. Sadly, this has not been the case.

Despite economic growth, large sections of the population, especially in urban areas, still live in poor conditions. Many families lack access to decent housing, clean water, sanitation, and other basic amenities. The gap between prosperity and deprivation is growing, and needs urgent attention.

Poverty in the Midst of Growth

Economic success should translate into better social conditions. But in Karnataka, many poor families continue to live in poverty traps, with little access to safe and secure living conditions. The reality for thousands includes inadequate housing, open defecation, polluted surroundings, and poor access to drinking water and electricity.

Urban slums remain widespread, with insufficient public spending and weak political will preventing lasting solutions. Efforts made since the 1970s to develop slums and build inclusive cities have had minimal impact. In fact, the number of slums has increased in recent years.

Urban planning and governance have failed to keep up with rapid urbanisation, and the dream of a slum-free Karnataka remains distant.

Unbalanced Urbanisation

Nearly half of Karnataka's population now lives in urban areas. However, urban growth has been uneven. Class 1 cities, which have populations above one lakh, have grown rapidly, while smaller towns and cities have lagged behind. This skewed urbanisation creates intense pressure on infrastructure and basic services in larger cities.

Another concerning trend is the rise of urban outgrowths, which are areas that emerge due to the spillover of economic activity. These outgrowths are often underdeveloped and poorly serviced, reflecting both the push from lack of rural opportunities and the pull of city-based employment.

Without timely corrective actions, this imbalance may worsen living conditions and reduce Karnataka's overall urban quality of life.

Three Major Challenges in Human Settlements

Urban Karnataka faces three significant challenges concerning human settlements:

Substandard and Unsafe Housing

Many poor families live in homes that are structurally weak and unsafe. These shelters, often built from temporary materials like thatch, leaves, or reeds, are highly vulnerable—especially during the summer months when fire hazards increase.

As of the latest estimates, urban Karnataka has around 1.02 lakh such deficient housing units. These homes pose a threat to life and need immediate replacement. Reconstructing them with proper materials is not only necessary but also cost-effective, since land acquisition is not required.

Unsafe housing is closely linked to other forms of deprivation, including lack of clean water, toilets, electricity, bathrooms, and cooking fuel. Without addressing housing quality, broader human development remains incomplete.

Lack of Basic Amenities

Around 16.3 lakh urban families in Karnataka are deprived of at least one basic housing-related amenity. An average of 5.9 lakh families lack each of the essentials such as clean water, toilets, electricity, or drainage.

The most serious concern is the absence of toilets. Nearly 8 lakh households do not have access to latrines and are forced to practice open defecation; an undignified and unhealthy practice. On average, every urban area in the state sees over 26,000 families without access to sanitation.

This problem is mainly due to poor planning and a failure to include toilet construction costs in housing schemes. Without proper toilets, urban living remains incomplete and unhealthy.

Another pressing issue is waterlogging in and around homes due to lack of drainage connections. Many slums and informal settlements do not have proper sewage or water flow systems, leading to unclean environments and health risks.

Unsafe Drinking Water

A worrying number of households, about 6.4 lakh, rely on untreated water sources such as borewells and open water bodies. These water sources are often contaminated with excess fluoride, iron, arsenic, nitrate, and salinity.

Using unsafe water for drinking and cooking can cause long-term health problems. Yet, in the absence of technically treated water supply, many families have no choice. This reflects a serious gap in public service delivery.

The Slum Reality

Karnataka has the second-highest number of slums in the country, after Tamil Nadu. There are 1,424 slums in the state, both notified and non-notified, with Bengaluru alone housing a large share of them. Over 5.5 lakh families live in these slums, about 6.87% of the state's urban households.

Slum dwellers live in substandard conditions, often disconnected from the mainstream urban life. Despite several schemes over the decades, progress has been extremely limited. The lack of urgency and consistent political effort has kept these communities in a cycle of neglect.

Bridging the Economic and Social Gap

It's time Karnataka recognised the need to balance its economic growth with social equity. Economic progress must benefit all sections of society, particularly the poor, who suffer the most from deprivation and insecurity.

Though Karnataka has seen strong economic growth in the past decade, social advancement has lagged. The persistence of poverty and lack of basic amenities undermines the very idea of progress.

Karnataka's fast-paced urbanisation and growing economic activity must now be matched with investments in human development and inclusive urban governance.

A Three-Point Agenda for Action

Replace Deficient Housing

The state government must urgently identify and replace all life-threatening housing units. This should be done through a mission-based strategy using quality materials and construction standards. Public housing should include all necessary facilities: toilets, electricity, safe fuel, bathrooms, and drainage.

This will significantly improve the quality of life and health conditions, particularly in slums and informal settlements. Bengaluru, given its large slum population, should be a top priority.

Integrate Housing and Amenities in a Single Scheme

Current housing schemes often leave out the costs of essential amenities. Karnataka should consolidate these into a single, integrated housing scheme that ensures every poor family receives a complete, functional home.

This integrated approach should be implemented across all slums, regardless of their classification or location. It must also address issues like water supply, sanitation, drainage, and electrification as part of one comprehensive solution.

Strengthen Smaller Towns and Semi-Urban Areas

To reduce the burden on large cities and promote balanced development, Karnataka must invest in tier-2 towns and semi-urban centres (hoblis). These areas need better infrastructure, basic services, and incentives for industries to set up operations.

By encouraging non-farm employment in smaller towns, the state can reduce migration to Bengaluru and promote more equitable development. Hoblis with populations under 5,000, often neglected in planning, can act as key service centres linking rural and urban economies.

On the whole, Karnataka's economic success should not overshadow the pressing social challenges faced by its people, especially in cities and slums. Without secure housing, basic amenities, and a clean environment, urban development remains incomplete.

The time has come for Karnataka's policymakers to rethink their approach. A more inclusive, balanced, and humane development path is not just desirable, it is essential.

Dr. Ambedkar Institute of Technology: Where Innovation Meets Excellence

BY DR. M. N. THIPPESWAMY

Dr. Ambedkar Institute of Technology (Dr. AIT) is more than just an educational institution—it is a hub of innovation, creativity, and opportunity. The college proudly fosters an environment where excellence is encouraged and ideas come to life. Through a rich blend of student-led clubs, national and international competitions, global exposure programs, technical workshops, and strong industry partnerships, Dr. AIT offers one of the most comprehensive platforms in the country for students to develop their potential and make meaningful impact.

Clubs That Drive Innovation

Dr. AIT is home to several active student clubs that promote learning beyond textbooks. These clubs bring students together across departments and interests, giving them the chance to apply their skills to real-world projects.

One of the leading teams is Saranyu Racing, under the DRAIT Motorsports Club. The team includes 22 students from Mechanical, Aeronautical, Computer Science, ECE, and CSBS departments. It represents the college at Formula Student events by designing, building, and testing race cars—an experience that combines engineering precision, teamwork, and strategic thinking.

The NANOGRAM Tech Hub, led by the Electronics and Communication Department, encourages students to explore embedded systems, electronics, and circuit design through hands-on activities and team projects.

The Student Welfare Office engage the student community by establishing various clubs to bring students across the departments with similar interest on a single platform. The Google Developer Club and 10X (Code Ninja) clubs engage students to create awareness on latest technologies and tools by conducting workshops.

These clubs regularly organize peer learning sessions to discuss the ideas that enable students to participate in National Level Hackathons. These clubs also organize annual National Level Hackathon called COLOSSUS to motivate students of our college to come out with innovative ideas.

COLOSSUS is a 24-hour national level hackathon that attracted more than 200 team registrations and 70 teams participated in the final event. The event brought together budding technologists to brainstorm, build, and pitch solutions under mentorship from industry leaders. The atmosphere was electrifying with intense coding hours, networking, and prototype presentations to the panel of jury. A competitive coding event fostering innovation and problem-solving among students.

This hackathon aimed at fostering innovation, problem-solving, and teamwork among aspiring developers. The event provided students with a platform to showcase their coding skills, develop creative solutions, and collaborate on real-world challenges.

From the skies to software, the UAV Club, another club functioning under the Student Welfare Office (SWO), offers a dynamic platform for students to explore drone technology and aerial systems. Members of the club gain valuable hands-on experience that complements their academic learning. The club encourages innovation, teamwork, and applied engineering—equipping students with skills relevant to the evolving aerospace and tech industries.

Extra-curricular Clubs at Dr. AIT

The SWO also established clubs such as Music, Dance, Fashion, Photography and yoga clubs that allows the students to continue practicing and perform the art of their interest. The students from these clubs have participated in university level competitions.

Social responsibility also holds an important place in Dr. AIT's culture. The Rotract Club actively engages in community-based events, such as blood donation drives, awareness campaigns, and outreach programs that instill empathy and civic consciousness in students.

Equally energising was Marathon 2K25, organised on 10th January 2025 to commemorate National Youth Day in honour of Swami Vivekananda. The event promoted physical well-being, discipline, and creativity—motivating students to maintain a balance between mind and body in pursuit of innovation.

Achievements

Dr. AIT's reputation is backed by the outstanding achievements of its clubs and departments:

■ Saranyu Racing at FFS India 2024 (held at Kumarguru Institution, Coimbatore):
*1st Place in Cost Report Presentation
*1st Place in Sales Report Presentation
*2nd Place in Design Presentation

■ Information Science & Engineering Club:
Represented India at the Indo-Israel Space-Tech Leadership Programme in 2019

■ AI & ML Club:
Signed a Memorandum of Understanding with Avinya Techknows to promote project-based learning and industry exposure

These accomplishments stand as a testament to the energy, dedication, and brilliance that flows through the corridors of Dr. AIT. At Dr. Ambedkar Institute of Technology, education goes far beyond the classroom. It is a place where students are encouraged to explore, innovate, and lead—through technical clubs, global collaborations, impactful events, and a nurturing research environment. Whether it's the roar of a race car, the buzz of a drone, the logic behind a machine learning model, or the quiet service of social outreach—Dr. AIT is where future engineers and leaders are shaped with passion and purpose.

The author is Principal, Dr. Ambedkar Institute of Technology

Dr. Ambedkar Institute of Technology Achievements in National Hackathons

1. Smart India Hackathon 2024 – Winners
A team from Dr. Ambedkar Institute of Technology secured first place at the Smart India Hackathon 2024, held at KIT College, Kolhapur, Maharashtra, on 12th December 2024.
Project Title: Empowering Farmers in India: Transforming Agriculture Through Technology
Prize: Rs. 1 Lakh
Mentor: Dr. Tanuja P. Patgar

2. Shridevi National Hackathon – 1st Runner-Up
In another remarkable accomplishment, a team from the institute emerged as the first runner-up in the Shridevi National Hackathon, held at Shridevi Institute of Engineering and Technology, Tumkuru, on 29th October 2024.
Project Title: She-Fit: Holistic Development for Women's Reproductive Health, Fitness, and Mental Well-being
Prize: Rs. 30,000

3. Winner – DevExplore Hackathon, NCE Nellore
A team from Dr. Ambedkar Institute of Technology secured first place at the DevExplore Hackathon, held at NCE, Nellore, on 4th January 2025.
Project Title: AI and IoT-powered Smart Waste Segregation System
Prize: Rs. 30,000

4. Code Fury 7.0 – 1st Runner-Up
Dr. AIT's talented coders also emerged as the first runner-up in Code Fury 7.0, an online hackathon organised by UVCE, Bengaluru, on 8th August 2024.
Project Title: Relief Compass: Navigating Disaster, Guiding You to Safety
Prize: Rs. 7,500

5. Manipal M# Best Hack Win
A team from Dr. Ambedkar Institute of Technology achieved the Best Hack Award at the Manipal M# Hackathon, held at Manipal Institute of Technology, Manipal Udupi, on 14th October 2024.
Project Title: Mitra – Connecting SMEs and Investors
Prize: Rs. 10,000

6. Code Red 2025 – Winners
Another outstanding accomplishment came at the Code Red 2025 Hackathon, hosted by BMS Institute of Technology, Bengaluru, on 10th October 2025, where Dr. AIT students secured first place.
Project Title: Optical Device for Intelligent Navigation
Prize:Rs. 30,000

TUNNEL ROAD PROJECT

PM Modi sought representation, DCM tells council

Shivakumar says Gadkari had suggested that Mumbai's traffic scene be studied

EXPRESS NEWS SERVICE
@ Bengaluru

STATING that Prime Minister Narendra Modi, during his visit to Bengaluru on Sunday, asked him to give a representation on the Tunnel Road Project, Deputy Chief Minister DK Shivakumar on Thursday informed the Council that the PM was impressed by the Ragigudda Double Decker Project and gave a go-ahead. Now, the state government will come up with a 44 km-long double-decker project for Bengaluru, and both BBMP and BMRCL will share the cost on a 50:50 ratio basis, he said.

Replying to a question by BJP MLC CT Ravi, the Bengaluru development minister shared details of the Tunnel Road Project and its feasibility. "The PM said India is seen through Bengaluru, hence, we asked him for cooperation for the Tunnel Road Project. The PM asked me for a representation, and he assured that he would look into it," the DCM said.

He added that about 25 years ago, when he was urban development minister, Bengaluru's population was 70 lakh, which has now touched 1.40 crore. Vehicles number 1.23 crore. The city has 25 lakh software engineers, compared to 13 lakh in California. "To ease traffic, the Tunnel Road Project, Double-Decker Project, and roads in the Buffer Zone are being planned for the city," he stated.

Further, he said Union minister Nitin Gadkari was informed about the traffic situation, and he suggested to visit Mumbai and study the situation there. "After a study of 1.6 years, we decided to go ahead with the Tunnel Road Project," he reiterated.

Deputy Chief Minister DK Shivakumar attends the Council session at Vidhana Soudha on Thursday | NAGARAJA GADEKAL

"Judges, officials and citizens from around Hebbal take 45 minutes to reach Vidhana Soudha and its surroundings. Hence, we invited a global tender on the Build, Own, Operate and Transfer model. The state government will fund 40 per cent, and the chosen agency will invest 60 per cent. The government has allocated Rs 800 crore for land acquisition, and most of the land for the project falls under government departments, except St John's Hospital. The land will be acquired," the DCM said, adding that he was ready for any inquiry if there is any wrongdoing.

The DCM further added that the tunnel can accommodate three vehicles, along with an additional vehicle, during emergencies, while its construction will cost Rs 770 crore per km.

On a question related to land acquisition for the Peripheral Ring Road (PRR), the DCM said Rs 27,000 crore is needed for it. With 5,000 houses located near Gottigere, a part of the PRR, action to be taken is yet to be decided.

B'luru MPs against transfer of Hebbal land to pvt firm

EXPRESS NEWS SERVICE
@ Bengaluru

BENGALURU MPs strongly opposed the Karnataka Industrial Area Development Board's (KIADB) reported move to transfer 45 acres of land in Hebbal, originally intended for a multi-modal transit hub by the Bangalore Metro Rail Corporation Limited (BMRCL), to a private tourism company.

Bengaluru Central MP PC Mohan, in a post on Thursday, urged KIADB not to sell the land "meant for the public" to private builders. He said BMRCL is prepared to pay Rs 551.15 crore for the land to construct a hub integrating three Metro lines with a suburban rail station. Mohan alleged the land was being undervalued at Rs 12.10 crore per acre, compared to a market rate of Rs 60 crore, and described the deal as the 'Hebbal Land Scam.'

Bengaluru North MP and Union Minister of State for Micro, Small and Medium Enterprises and Labour & Employment Shobha Karandlaje also wrote to Chief Minister Siddaramaiah on Wednesday, reiterating her opposition to reducing the BMRCL's land share. She said the site is one of the last large parcels available in the area, critical for easing traffic congestion, linking industrial hubs in North Bengaluru, and integrating Metro, suburban rail, and the BMTC services.

Karandlaje urged the CM to ensure the land remains with the BMRCL "in the best interest of future urban mobility and Bengaluru's long-term transport needs."

The opposition comes amid reports that the KIADB has initiated the process of issuing a demand notice to a private entity for compensating the original landowners, and that the state government has decided to hand over nearly 35 acres of the prime Hebbal land, acquired two decades ago for public infrastructure development, to private real estate players at an allegedly cheap price of Rs 12 crore per acre.

Implement order on PoP idols, state told

EXPRESS NEWS SERVICE
@ Bengaluru

THE Karnataka High Court directed the state government to implement the notification prohibiting Plaster of Paris (PoP) Ganesha idols with full seriousness.

"Undisputedly, the issue is a serious one. We expect the state to implement the order (prohibiting PoP idols) with full seriousness," said a division bench of Chief Justice Vibhu Bakhru and Justice CM Joshi, while disposing of the petition filed by the Karnataka State Pollution Control Board (KSPCB). The petitioner has highlighted the impact of PoP idols on the environment, especially water bodies.

The petitioner alleged that the order of prohibition of the PoP idols is not complied with, and two persons, M Sridhar and Srinivas, who have industries in Hulimavu of Kumbalgodu, are illegally manufacturing the idols, and are evading the order and continuing to market them.

The government advocate submitted that certain FIRs have been lodged and necessary action would be taken in accordance with the law.

Recording the submission, the court said, "We do not pass any order as the government order is already issued prohibiting PoP idols, and the same needs to be implemented."

IMMERSIVE I-DAY

BMTC launches electric 'Vayu Vajra' fleet

EXPRESS NEWS SERVICE
@ Bengaluru

TRANSPORT Minister Ramalinga Reddy flagged off 10 air-conditioned electric BMTC 'Vayu Vajra' buses for services to Kempegowda International Airport (KIA) on Thursday, as part of its initiative to add 320 new electric buses under the Gross Cost Contract (GCC) model. Of these, 85 will serve the airport routes and 235 will be deployed for Vajra city services.

The event was held at KIA Terminal 2. The new buses will operate on 11 airport routes, connecting key parts of the city to KIA. These include HAL Main Gate, Banashankari TTMC, Art of Living Ashram, Kadugodi Bus Station, HSR Layout, Kempegowda Bus Station, Mysore Road Bus Station, Royal Meenakshi Mall, and Whitefield TTMC, covering important transit points such as Jayanagar, Shantinagar, Whitefield, ITPL, Koramangala, MG Road, Shivajinagar, Mekhri Circle, Vijayanagar, Yeshwanthpur, and Budigere.

The new 12-metre buses feature a 400-mm low floor, 283 kWh battery capacity, and can run up to 225 km a day. Each bus has a seating capacity of 35, with space for a wheelchair, high-back ergonomic seats, USB charging ports, vehicle tracking, CCTV cameras, panic buttons for women's safety, fire detection, and suppression systems, and accessibility features such as kneeling mechanisms and ramps. BMTC has installed nine chargers with a combined 240 kW capacity at KIA's P7 parking area as well.

EXPRESS READ

Air India Express adds 3 new routes from B'luru

BENGALURU: Air India Express announced the addition of three direct flights to Ahmedabad, Chandigarh, and Dehradun from September 2025 on Thursday. Starting September 1, the airline will operate twice-daily services on the Bengaluru-Ahmedabad and Bengaluru-Chandigarh routes. Daily flights between Bengaluru and Dehradun will begin on September 15, with a second daily Ahmedabad service from September 16. Introductory one-way fares for the new services start from Rs 4,100.

Medi choice entry begins, KEA revises advance fee

BENGALURU: The KEA has opened the first-round 'Choice' entry for medical, dental and homeopathy courses. A major change has been announced for Choice-2 candidates allotted medical seats with course fees above Rs 12 lakh. They will now pay an advance of Rs 12,00,117 (Rs 2 lakh for SC/ST and Category-1 candidates) instead of the full fee upfront, with the balance due after second-round results. Previously, the entire course fee had to be paid in advance. Candidates allotted seats under the 'G' category must follow the specified payment schedule. Those securing a seat through the All India Quota or another state's counselling can cancel their KEA seat before the second-round results, after which the advance will be transferred or refunded.

BCU invites admissions for PG courses

BENGALURU: Bengaluru City University (BCU) has announced August 16 as the last date to submit applications for admission to PG courses. Applications will be accepted until August 22 with late fee of Rs 250. It offers MA, MSc, and MCom courses across 20 departments at its Jnana Jyothi Central College campus. MA programmes include Kannada, English, French, German, Spanish, and Japanese, along with History, Economics, Sociology, Political Science, Social Work, Mass Communication and Journalism, and Urban Studies and Planning. MSc programmes are offered in Physics, Chemistry, Mathematics, Biochemistry, Botany, Zoology, Environmental Science, Fashion and Apparel Design, and Computer Science.

Bengaluru to get unique interactive tech museum

BOSKY KHANNA @ Bengaluru

BENGALURU is not just home to a large number of tech firms, but also houses the popular Visvesvaraya Industrial and Technological Museum. Now, the city is all set to host the first living technology and innovation museum, which will come up over 60,000 sqkm of The New Government Electrical Field (NGEF) land.

The area was earlier chosen for the construction of the Sky-Deck — the ambitious project of DCM and Bengaluru Development Minister DK Shivakumar.

Work on the museum, which is expected to open in three years, has just commenced, and it is being done in a public private partnership, where the state government's share is 49%. The remaining will be funded by other stakeholders. The project is still in conceptualisation and drawing stages, said an official.

UnbloxingBLR Foundation Chairman Prashanth Prakash, who is also chairman of the museum, said: "This will be India's first technology and innovation museum, which will showcase the journey on the global tech map."

It will deploy several latest tech tools that will offer a very immersive and interactive experience for visitors. While other tech museums have captured the journey of technological growth, this museum will be a lot more contemporary in its focus, especially pertaining to the technological and digital era of the late 20th and early 21st centuries. It will also be a very futuristic and live museum, added the team working on the project.

A file photo of exhibits at Visvesvaraya Industrial and Technological Museum

The UnbloxingBLR team said the museum is aimed at attracting youth towards technology. It will also be a platform for entrepreneurs, startups, and professionals to participate, share and do live exercises. Along with history, what's in store for the future will be showcased, seeking inputs from experts.

For the museum's creation, inspiration is also being drawn from the Bezos Centre for Innovation in Seattle, USA, and the Peres Centre for Peace and Innovation in Tel Aviv, Israel.

CHRIST UNIVERSITY V-C JOINS IFCU ADMIN BOARD

BENGALURU: Christ (Deemed to be University) on Thursday announced, Vice-Chancellor **Dr Fr Joseph CC** has been selected as a member of the Administrative Board of the International Federation of Catholic Universities (IFCU). The IFCU body represents over 240 Catholic universities worldwide. The announcement was made at the 28th General Assembly and Conference of IFCU, held in Mexico from July 18 to August 2. A conference titled 'Catholic Universities as Choreographers of Knowledge: Celebrating the 100th Anniversary of the International Federation of Catholic Universities' was held, which included keynote speeches, presentations, workshops and sessions addressing various issues related to education, academic freedom, creativity and knowledge.

Daily Starscope

PETER VIDAL

15TH August: Today's planetary patterns are contradictory, to say the least. They advise caution on the one hand, but extravagance on the other. They also offer a simple solution to any awkward situations: always act with care, consideration and courtesy. Friends and family will then be willing to back you.

ARIES (Mar 21 - Apr. 20)
Financially you may feel you're on to a winner, but keep your own counsel and be very wary indeed of friends who come up with bright ideas. Social costs are likely to spiral over the next two weeks, and you may have to act fast to avoid paying for something which is nothing to do with you.

TAURUS (Apr. 21 - May 21)
For quite some time you appear to have buried your head in the sand as far as one or two personal situations are concerned. With lunar influences so strong today, this could be a good moment to lift your head above the parapet and say what you think.

GEMINI (May 22 - June 21)
For once your lively and controversial tongue may be stilled. In fact, it would do you a power of good to stop and consider all personal matters, especially family arrangements. The last thing you want to do now is reveal something which ought to be kept under wraps.

CANCER (June 22 - July 23)
If you have anything to get off your chest you should do so today, especially if friends are involved. Only if money is an issue may you prevaricate and put off the big day until tomorrow. Plus, of course, you don't want to offend someone that you rely on!

LEO (July 24 - Aug. 23)
You are being pulled in two directions. But which way should you jump? As far as anyone can see, you have done an extremely good job of standing your ground and, for that, you deserve full respect. Do yourself a favour and sort out a cash question sooner rather than later.

VIRGO (Aug. 24 - Sept. 23)
This is an extraordinarily helpful day, even though it may be that the only matters you have to deal with are rather insignificant. If you have not yet bridged the gulf with a friend, do so today. And, if you have fallen out with someone, how about an apology?

LIBRA (Sept. 24 - Oct. 23)
It could be an extravagant day, and the only reason for caution could be if you are spending other people's money. In love you need physical affection and reassurance and, at work, you should be considering promotion. It's about time that your true talents were appreciated.

SCORPIO (Oct. 24 - Nov. 22)
It's an ideal moment to hold out the hand of friendship, even to people who in the past have been rivals rather than supporters. It would also be very useful to take a little financial advice before you are pushed into a corner - and make an embarrassing loss.

SAGITTARIUS (Nov. 23 - Dec. 22)
A whole host of planets passing through challenging regions of your chart means that you must let other people seize the initiative. This is not obligatory, but if you try to take the lead yourself it may rebound on you, perhaps because you'll overlook certain fundamental details.

CAPRICORN (Dec. 23 - Jan. 20)
You simply have to buy time in personal and romantic matters. You may continue to do your best, to make new friends, or to enjoy a current relationship, but you should realise that there are still many changes on the way. And, when they come, you might have to rethink certain long-term plans.

AQUARIUS (Jan. 21 - Feb. 19)
There are periods when you need to spend a little more time at home or dealing with important family issues. This is one of them, so hopefully relations will play ball. In love, the lesson is that relationships need to be worked at - no effort should be spared!

PISCES (Feb. 20 - Mar 20)
You will be able to express yourself with skill and precision, not to say poetic imagination. This is therefore an excellent moment to appeal to other people, persuading them that they must do what you say! But will you succeed? Well, yes - at least part of the time.

Darshan arrested on return from TN horse fair

EXPRESS NEWS SERVICE
@ Bengaluru

FOLLOWING cancellation of bail by the Supreme Court, actor Darshan Thoogudeepa was arrested around 4pm from his wife Vijayalakshmi's flat on the 15th floor of Prestige South Ridge Apartments in Hosakerehalli.

Darshan, who had gone to a horse fair in Tamil Nadu on the Chamarajanagar border with his friends and a horseman, is said to have informed police that he would reach the city around 4.30pm from Tamil Nadu. He was at a friend's farm in Madikeri on Wednesday night, and went to the fair in the early hours of Thursday.

Three police teams were tracking Darshan's movements since noon. He came to the flat through the back gate. To avoid the media, Darshan, who was travelling in a red SUV from Tamil Nadu, changed the vehicle enroute. Police inspector Nagesh of Kamakshipalya police station and Subramanya of Govindarajanagar police station arrested Darshan and took him to Annapoorneshwari Nagar police station at 4.45pm.

Darshan's fans had gathered near his apartment and Annapoorneshwari Nagar police station. Police had a tough time shifting the five accused to the judge's residence as many fans started following the police vehicles. Dinakar Thoogudeepa, Darshan's younger brother, was also seen at the police station and near the judge's residence.

In the morning, Darshan's nephew Chandan visited the former's RR Nagar residence and reportedly took clothes and other daily needs in a suitcase.

While Pradoosh was the first to be arrested from Girinagar around 1pm, Pavithra Gowda was arrested from her RR Nagar residence around 2.40pm. Nagaraju was arrested from Darshan's farmhouse on T Narasipura Road in Mysuru. Lakshman called police and surrendered on a highway in Mysuru. Jagadeesh visited Anu Kumar's house in Mahaveer Nagar in Chitradurga, and both left on a bike at noon. They later called police and surrendered.

Actor Pavithra Gowda being taken into custody in connection with the Renukaswamy murder case after her bail was cancelled, in Bengaluru on Thursday

BACKGROUND OF ACCUSED

Jagadeesh and Anu Kumar were arrested on charges of kidnapping and bringing Renukaswamy from Chitradurga to Pattanagere shed

Pradoosh, a techie by profession, allegedly tried to tamper digital evidence and also played a key role in paying about Rs 30 lakhs to the other accused asking them to surrender

Nagaraju, personal manager of Darshan, and Lakshman, driver, accused of assaulting Renukaswamy and also shifting the body from shed to stormwater drain near Sumanahalli

Jagadeesh and Lakshman were at the Shivamogga jail, Darshan's assistant Nagaraju in Kalaburagi prison, Pradoosh in Belagavi prison, Pavithra Gowda and Anu Kumar in Bengaluru Central Prison and Darshan was in Ballari prison till they got bail in the HC

RENUKASWAMY'S FAMILY WELCOMES SC DECISION

Chitradurga: Kashinathaiah, father of Renukaswamy went emotional on hearing the Supreme Court's decision of cancelling the bail for actor Darshan. Both Kashinathaiah and his wife, Rathnaprabha said they believe in justice. Renukaswamy's wife Sahana also said that who has done mistake should be punished.

The SC judgment today on setting aside bail to Darshan and others in the Renukaswamy murder Case sends out a strong message – ALL ARE EQUAL BEFORE LAW. To the rest of us I would like to say – follow due process, keep faith in the justice system – its long and hard but there is light at the end of the tunnel. Do not take law into your own hands, justice will be served. Most importantly, stay true to your conscience

Ramya, actress and former MP

TIMELINE

June 8, 2024: S Renukaswamy, 33, a chemist from Chitradurga, was allegedly kidnapped and murdered at a shed in Pattanagere in RR Nagar

June 9: Renukaswamy's body found in a stormwater drain at Summanahalli

June 10: Three persons surrender before Kamakshipalya police. Cross questioning and thorough police interrogation of the trio pointed to Darshan and Pavithra Gowda's involvement

June 11: Darshan, Pavithra and 10 others arrested. The remaining five arrested in next two days. Accused taken into police custody

June 22: Darshan remanded in judicial custody

August 25: Darshan's pictures and a video of him getting preferential treatment inside Bengaluru Central Prison goes viral. Photographs of Darshan hanging out with notorious rowdy sheeters Wilson Garden Naga and Kulla Seena, along with his manager Sreenivas, on the lawns of the jail spark row

August 27: A city based court grants permission to shift Darshan to Ballari jail

August 29: Darshan and few other accused shifted to different jails

September 4: 3,991 page detailed chargesheet running into seven volumes against Darshan, Pavithra and 15 others submitted to court

October 30: High Court grants six-week interim bail to Darshan to get treatment for his back spasm

November 23: Police submit additional chargesheet of 1,300 pages to a local court

December 13: HC grants bail to Pavithra, Darshan, Pradoosh Rao, Jagadeesh, Anu Kumar, Lakshman and Nagaraju K

December 30: The state Home department grants approval to file a Special Leave Petition before Supreme Court

January 6, 2025: State files SLP before SC, challenging bail granted to Darshan, Pavithra and others

August 14: Supreme Court cancels bail to Darshan and Pavithra, and five others

SC warns against spl treatment in jail for Darshan

CONTINUED FROM PAGE 1

THE SC cancelled bail of accused number 1 Pavithra Gowda, 34, resident of RR Nagar; accused number 2 Darshan Thoogudeepa, 48, residing in Ideal Home Township in RR Nagar; accused number 6 Jagadeesh alias Jagga, 37, of Railway Colony, Chitradurga; accused number 7 Anu Kumar, 31, of Holalkere Road in Chitradurga; accused number 14 Pradoosh S Rao, 41, from Girinagar; accused number 11 R Nagaraju, 42, of Ramakrishna Nagar in Mysuru, and M Lakshman, 55, of RPC Layout.

Of the seven accused, five were arrested by West division police, while the remaining two surrendered before Chitradurga police. "All seven accused were arrested. Jagadeesh and Anu Kumar, who were arrested around 6.15pm in Chitradurga, will be produced before the judge on Friday," said DCP (West) S Girish.

After medical tests at Annapoorneshwari Nagar police station, Pavithra, Darshan, Pradoosh, Nagaraju and Lakshman were produced before Additional City Civil and Sessions Judge IP Naik, at his residence in NGV, Koramangala, around 7.40pm, and remanded in judicial custody. Around 8.05pm, the accused were shifted to Bengaluru Central Prison in Parappana Agrahara. The next hearing is on August 23.

Reading out the operative part of the verdict, Justice Pardiwala said, "Justice Mahadevan has pronounced a very erudite judgment. It is ineffable. It conveys a message that however big the accused may be, he or she is not above the law." He stated that it contains a strong message that the justice delivery system should ensure that rule of law is maintained at any cost. "No man is above law or below it. Nor do we ask anyone's permission when we obey it...," he said.

Strictly warning those who provide special treatment to the accused in jail, the top court added, "The day we come to know that the accused persons are being provided 5-star treatment, the first step would be to

place the jail superintendent in suspension with all other officials." The court asked Siddharth Luthra, appearing for the Karnataka government, that if it got to know about any wrongdoing in jail, "we will call and summon you to answer".

In earlier hearings, the court had termed the HC order granting bail as a "perverse exercise" of discretionary power.

DARSHAN FAN CLUB URGES UNITY

Following the cancellation of bail, DCompany, an official fan page of actor Darshan, stated,"Dear fans, please be patient and maintain peace. Justice always protects those who believe. Let's hope that our boss (Darshan) will reunite with us soon. With the help of your trust and love, we can face this time with courage."

Dalit youth dies by suicide, alleges cop assault, caste abuse

EXPRESS NEWS SERVICE
@ Chikkamagaluru

A Dalit youth from Samse village in Kalasa taluk died by suicide after alleging police assault and caste abuse by Kudremukh police personnel. The deceased, Nagesh of Bastigadde, hanged himself on Wednesday.

In a complaint filed earlier at Kudremukh police station, Nagesh had accused constable Siddesh of thrashing him and hurling casteist slurs on July 15. According to the complaint, Nagesh was returning in his autorickshaw around 10.30 pm when he saw Siddesh and two locals standing on the road with their vehicle parked across it.

Using his mobile phone torch to navigate, Nagesh approached them, prompting Siddesh to suspect he was filming them drinking alcohol. The constable allegedly assaulted and abused him. Instead of acting on his complaint, police registered a counter-case against Nagesh, accusing him of obstructing a public servant on duty.

His autorickshaw and pesticide sprayer were seized, though he later secured bail. Relatives said Nagesh was not financially sound enough to retrieve his vehicle and feared further police harassment.

In his death note, Nagesh accused Siddesh of torture and named PSI Adarsh for failing to act on his complaint. Following his death, his relatives staged a protest demanding the dismissal of Siddesh and Adarsh and compensation of Rs 50 lakh for the bereaved family.

State to launch heart health screening for drivers

Bengaluru: The State government is planning a special heart health screening for drivers across the state, following recent findings that auto and cab drivers accounted for around 30 per cent of sudden deaths due to suspected heart attacks in Hassan district this year. Speaking in the Assembly, Health Minister Dinesh Gundu Rao said they often work under stress, spend long hours on the road, and are therefore prone to heart attacks. The investigation was initiated by the government amid growing concern over a spate of sudden deaths among young individuals. BJP MLA Suresh Kumar urged the state government to provide cardiopulmonary resuscitation (CPR) training to yoga instructors, gym trainers, physical education teachers, and others, noting that such training could help them respond effectively to cardiac arrest emergencies.

Wheel of Wellness to boost women's preventive care

Bengaluru: To address women's health needs at every stage of life, from adolescence to menopause, the Asian Research and Training Institute for Skill Transfer (ARTIST) for Her launched the Wheel of Wellness at the Cutting Edge 2025 conference. Launched in partnership with the global health non-profit organisation Jhpiego and others, the project will begin with pilot clinics in Karnataka. Trained providers will use an interactive tool that covers 11 key areas of women's health, from adolescent nutrition and menstrual health to pregnancy care, chronic disease screening, and menopause support. "This is about moving from reactive treatment to proactive prevention. Every clinic visit should be a chance for screening and prevention, and with technology, we can make this possible for millions," said Dr. Hema Divakar, founder of ARTIST for Her.

Women and Child Development Minister Laxmi Hebbalkar on Thursday said the monthly financial aid of Rs 2,000 for the women head of households under the Gruha Lakshmi scheme, which was due from July, will be released within a fortnight. The minister told reporters here that she intends to release the amount by Ganesh Chaturthi festival which falls on August 27

Dr G: Govt will take action against whistleblower if his claims are false

Tells Oppn: Truth should come out. Shouldn't we conduct a probe into the allegations?

EXPRESS NEWS SERVICE
@ Bengaluru

DEFENDING the state government's decision to set up the Special Investigation Team (SIT) to probe the Dharmasthala case, Home Minister G Parameshwara on Thursday clarified that action will be taken against the whistleblower if his claims are false.

Replying to BJP MLAs' allegation in the Legislative Assembly that the Congress government deliberately targeted Dharmsthala to hurt the religious sentiments of a section of society, Dr Parameshwara said the SIT probe will bring out the truth.

"Let me make it clear as home minister that we (the government) have not yielded to any pressure and will never. The truth should come out. Shouldn't we conduct a probe into the allegations? SIT is moving in the right direction. If the complainant's claims are false, there is a provision in the BNSS Act to take action against him," Dr Parameshwara said.

On BJP MLAs' statement that women will hit the streets against the state government, Dr Parameshwara appealed to them not to give a political or religious twist to the case. "What mistake did the government make? We just want to bring out the truth. Neither I nor the CM nor the DCM made a phone call to the SIT chief," he clarified.

Home Minister Dr G Parameshwara counters the Opposition BJP's allegations on the Dharmasthala mass burial case, in the Legislative Assembly on Thursday | EXPRESS

The BJP MLAs alleged that the government had set up SIT because of pressure from some Left-leaning organisations and warned that people will launch an agitation against it for hurting their religious sentiments.

Dr Parameshwara claimed that he too has high regards for Dharmasthala temple and its dharmadhikari D Veerendra Heggade. Dharmasthala temple management under Dr Heggade has financially empowered lakhs of women through SHGs, he said.

Earlier, BJP legislators Arvind Bellad, BY Vijayendra, SR Vishwanath, Araga Jnanendra and others attacked the government over the issue and demanded that an interim report on SIT probe be tabled during this session. Senior BJP MLA Basanagouda Patil Yatnal said the government should stop the SIT probe into the Dharmasthala case.

DCM claims conspiracy to tarnish temple town's image

EXPRESS NEWS SERVICE
@Bengaluru

Deputy Chief Minister D K Shivakumar on Thursday said there is a massive conspiracy to tarnish the image of Dharmasthala. "I believe in Dharmasthala and its administrative board. The home minister will explain the reasons for forming the SIT. This place has lakhs of believers, let's not politicise this," he told the opposition BJP in the Assembly.

"Why would the Congress intervene in this? Don't drag the Congress high command into this. The Dharmadhikari of Dharmasthala has been doing yeoman service, we have no doubt about it. Someone has alleged crimes due to an internal feud. When there are many complaints, the home minister or the government can't ignore them. We believe in the holiness of Dharmasthala more than you," he said.

"A conspiracy is being hatched to destroy hundreds of years of legacy. It is not correct to tarnish someone just like that. It has all happened due to one complainant," he told reporters later. "Many members have spoken about this issue. I have told them that action must be taken against those who mislead the investigation. The CM has also said that action must be taken against such people. I have information on this case. 'Dharma' must not be tarnished. Culprits must be punished."

Asked about BJP's allegation that the Congress was trying to tarnish the image of Dharmasthala, he said, "The Congress will not allow anyone to tarnish the image of any religious place. We treat everyone equally when it comes to religion."

On the Supreme Court rejecting Darshan's bail, Deputy Chief Minister DK Shivakumar said, "I just learnt about it. The CM also informed this in the session. I was shocked too, but we can't talk about the court's ruling."

Govt to bring law to tackle hate speech

EXPRESS NEWS SERVICE
@Bengaluru

HOME HOME Minister G Parameshwara said that a new law will be brought in to crack down on those who make hate speeches, inciting communal sentiments. In the coastal region, communal harmony has been disturbed in recent years. Due to this, murders and violent incidents are taking place. A special task force has been formed to curb this. Unnecessarily, hate speech and provocative posts on social media have led to violence. Therefore, a new law will be implemented against those who make hate speeches in the coming days, the minister said.

On June 11, a Special Task Force was formed in Dakshina Kannada, Shivamogga and Udupi to control communal violence. The force is monitoring those who post hate speech and communal-related incidents on social media. It is keeping a watch on potential communal violence, said the minister.

Apart from Bengaluru, Mangaluru contributes 6% to the state's GDP. The task force is working to maintain communal harmony. So far, no incidents of violence or harming communal sentiments have occurred, said the minister.

Karnataka has the second largest investment atmosphere in the country. The Global Investors' Meet witnessed signing of MoUs worth 10.27 lakh crore, and people will go back if there is a law and order issue. Hence, to ensure law and order is stable in the coastal region, the Task Force was constituted, said the minister. "We too do not want to see such force and once the situation becomes normal, we will think of withdrawing it," he said.

The minister termed comments against individuals and organisations in the background of Dharmasthala burial case investigation as sad.

Earlier, Council member Kishore Kumar Puttur said the Home Minister visited Mangaluru on May 3 after the murder of Suhas Shetty but did not go to the victim's home. This has sent a message that appeasement is taking place, said Puttur. Bharathi Shetty said she comes from the coastal belt and remarked that for 'communal harmony', Hindus must remain silent. Shetty said, 'Cow killing, Love Jihad and attack on Hindus must not be taken for 'communal harmony'.

In response, Parameshwara said: "You have not understood your town. Had the region been peaceful, we would not have come to restore peace. We did not come to create differences."

Min calls for infra boost in revenue offices

EXPRESS NEWS SERVICE
@ Bengaluru

Revenue Minister Krishna Byre Gowda said on Thursday that the quality of software should be improved and the number of servers in the revenue department increased. Besides, infrastructure in taluk offices should be upgraded.

Participating in a debate in the Legislative Council on the Registration (Karnataka Amendment) Bill, 2025, which was passed in the Legislative Assembly, he said he had introduced many reforms in the department after assuming office. Though he faced stiff resistance from officials and other staff of the department, he did not stop, but continued with his reforms.

He said the Bill aimed at simplifying the process of registration of properties with minimal human intervention. "If a loan is taken and later repaid, it will be automatically reflected in the RTC (Records of Rights, Tenancy and Crops), preventing people from carrying applications and sitting in government offices to get this work done. Further, when property registrations are from Bangalore Development Authority (BDA) or the housing board, they will be done automatically. Even title deeds at tahsildars' offices will be done automatically," he said. When documents are scanned electronically, the person concerned need not be present at offices, he said.

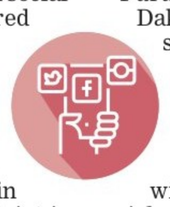
The Legislative Council passed the Bill by voice vote.

The Council passed seven Bills related to Basavakalyan, Kaginele, Nadaprabhu Kempegowda Heritage Area, Kittur, Kudala Sangama, Banavasi and Sarvajna development authorities. The bills empower the CM to appoint ministers of his choice to head these authorities.

Govt should take action against those spreading misinfo on social media: BJP

EXPRESS NEWS SERVICE
@ Bengaluru

THE Opposition BJP on Thursday demanded that the State Government take up suo motu case against those who spread misinformation through social media about the sacred Dharmasthala temple.



Raising the issue during an adjournment motion on the Dharmasthala issue, BJP MLA V Sunil Kumar said that the town in Dakshina Kannada district is a sacred place for every Hindu. He said that for the last few months, attempts have been made to damage this faith and the reputation of Dharmasthala by spreading misinformation. "The government seems to have a soft corner towards people who are indulging in this act," he said, adding that his party is not against the probe being conducted by the Special Investigation Team (SIT). "But in the name of freedom of speech and expansion, there is a systematic conspiracy to damage Dharmasthala's reputation," he said, adding that the government did not feel the need to control the spread of misinformation.

Further, Sunil said that the Dakshina Kannada SP has stressed on narco test on the witness-complainant, and if it is done, then the truth would come out.

According to him, the witness-complainant was misleading the police. "Why can't the government release the SIT interim report and prevent further misinformation from being spread?" Sunil said.

During the violence in KG Halli and DJ Halli, Siddaramaiah was the Leader of the Opposition, and he had blamed one Facebook post for hurting the religious sentiments of a section of society for causing the unrest, Sunil recalled. "One should check posts on Dharmasthala on Facebook and other social media... they speak low of the sacred town. How much would this hurt?" the former minister said. He also condemned the protest by SDPI. "What is SDPI's connection with the ongoing probe and Dharmasthala? Even this has to be probed," he said.

"We want to know what your (government) agenda is... if you remain silent, it will send out the wrong message. We want to know who is funding the conspiracy. The government is showing concern only after people protested. The government has to apologise," he added.

"One should check posts on Dharmasthala on Facebook and other social media... they speak low of the sacred town. How much would this hurt? What is SDPI's connection with the ongoing probe and Dharmasthala? Even this has to be probed — V Sunil Kumar, BJP MLA

Siddu: Rajanna's resignation internal matter

EXPRESS NEWS SERVICE
@ Bengaluru

CHIEF Minister Siddaramaiah on Thursday said that there is no need to give an explanation on Cooperation Minister KN Rajanna's resignation as it is an internal matter of the Congress. Leader of Opposition in the Legislative Council Chalavadi Narayanaswamy, who raised this matter during Zero Hour, said the government has not given a proper statement on the reasons for Rajanna's resignation.

Ruling party leader in the Council Boseraju said the government has already given its clarification on the matter and there was no point in raising it again. This led to a heated argument for a while between members of the ruling and opposition parties.

Chief Minister Siddaramaiah at the Council on Thursday | NAGARAJA GADEKAL

Council chairman Basavaraj Horatti ruled that there was no need for a debate on this matter. Narayanaswamy, who objected to this, accused the Congress of insulting Rajanna, a Dalit leader, by "dismissing" him from the cabinet.

Responding to this, Chief Minister Siddaramaiah said, "That is your (BJP) culture. You have raised a matter that is irrelevant. When Yediyurappa resigned and when Yatnal was expelled, did your party give an explanation?"

Decriminalisation Bill for ease of biz tabled

The state government on Thursday tabled the Karnataka Decriminalisation (Amendment of provisions) Bill, 2025, which seeks to tweak certain Acts in 12 departments for "decriminalising and rationalising offences and to further enhance trust-based governance for ease of living and doing business". The Bill proposes to replace imprisonment with penalties with the compliance of employers and industries as they will not face criminal proceedings for violations. The state's move is in line with the Centre's Jan Vishwas (Amendment of Provisions) Bill, 2023, that aimed to decriminalise minor offenses. As per the draft Bill, the imprisonment element for violation of the Acts has been omitted. ENS

AMENDMENTS PROPOSED

OTHER BILLS

- Karnataka Urban Development Authorities Act, 1987
- Agricultural Produce Marketing (Regulation and Development) Act, 1966
- Warehouse Act, 1961
- Tourism Trade (Facilitation and Regulation) Act, 2015
- Industrial Areas Development Act, 1966

- Gram Swaraj and Panchayat Raj Act, 1993
- Lifts, Escalators and Passenger Conveyors Act, 2012
- Municipalities Act, 1964
- Municipal Corporations Act, 1976
- Town and Country Planning Act, 1961

KGST AMENDMENT BILL TABLED

The Karnataka Goods and Services Tax (Amendment) Bill, 2025, was tabled in the Assembly to overcome the new tax regime that had faced certain difficulties.

The GST Act, 2017, was enacted to make a provision for levy and collection of tax on intra-state supply of goods or services or both by the government which will be amended further.

Online portal to apply for BPL cards to open in Sept

Food and Civil Supplies Minister KH Muniyappa said the online portal through which new beneficiaries can apply for Below Poverty Line (BPL) cards will start functioning from September. The portal was closed in 2023 during the code of conduct for the Assembly polls. Replying to Mangalore City North MLA Dr Bharath Shetty, who raised the issue of delay in distributing BPL cards, the minister said, "We have identified more than 13 lakh ineligible BPL cardholders," he said. He clarified that the 13 lakh BPL cardholders will be moved to the Above Poverty Line (APL) category. After this, eligible people can get BPL cards. "In case, if a genuine BPL card gets changed to APL, it can be rectified at the local tahsildhar's office," he said. ENS

Civil society groups seek probe into vote fraud

BANSY KALAPPA @Bengaluru

CIVIL society groups have voiced alarm over what they described as "serious irregularities" in the functioning of the Election Commission over the Special Intensive Revision (SIR) issue in Bihar. The concerns were raised during a two-day meeting on August 13 and 14, which focused on strategies to address alleged vote manipulation.

Former IAS officer M G Devasahayam said participants have been closely monitoring the Supreme Court proceedings on poll-related irregularities.

The groups criticised what they termed the slow response of opposition parties - including the Congress - despite repeated warnings from civil society since last year about vote manipulation. They emphasised the need for case-by-case investigations into alleged "spurious injections" of votes in constituencies across the country. The meeting organisers said they plan to hold a media briefing on Saturday to outline their strategy for taking the issue to the public.

Meanwhile, the Congress has raised concerns over electoral irregularities in the Bangalore Rural parliamentary constituency. Former MP D K Suresh alleged that anomalies similar to those reported in Mahadevapura had also been detected in Bangalore South and Rajarajeshwari Nagar. These, he said, included bulk voter registrations and unexplained deletions. "These irregularities are serious and need to be looked into," he said.

MINES DEPT NOTICES TO 72 QUARRY LEASE HOLDERS

CONTINUED FROM PAGE 1

IN all, a fine of Rs 6.50 lakh has been collected recently by the Mines and Geology Department from 26 lease holders after conducting the mahazar along with Tahsildar, Additional Director of Land Records and Forest Department officials, pending inquiry before Upa Lokayukta Justice Veerappa. The fine amount has been remitted to the government, sources told *TNIE*.

Added to this, sources said that the Mines and Geology Department has issued notices to a total of 72 quarry lease holders for the alleged violation of the Karnataka Minor Mineral Concession Rules, 1994, in the district, including the 26 lease holders who have already paid the fine now. Even remaining leaseholders are also replying to the notices and fulfilling the conditions by taking corrective measures, sources added.

Taking serious note of the complaints received over the alleged exploitation of natural resources and causing loss to the state's exchequer due to the alleged illegal mining, quarrying, stone crushing, and violations of lease conditions by certain lease holders in Davanagere district, Justice Veerappa, along with the District Task Force, paid surprise visit to the district in July 2025. In all, he had registered a total of 13 suo moto complaints not only pertaining to the mining department but also about maladministration in other departments in the district.

Names of leaseholders who have been slapped with fine

Shankar K, Vijayalakshmi Chamundeshwari Stone Crusher, GMM Enterprises (3 leases), Balasubramanya, Navabharath Building Products, Rangaswamy, T G Siddesh (2 leases), Umesh T G, Kiran Kumar G U, T G Manoj Kumar, Susheel Kumar of Shaneshwara Swamy Stone Crusher, Ramesh Babu, T G Prabhakar, Jyothy G C, Lakshmivenkateshwara Stone Crusher, Prakash M, Sujatha K, Sridhar T N, Manjunatha, Chandrappa M, Venkatesh Babu R, Praveen Kumar and Shivanaik.

Octogenarian still awaits land granted to her freedom fighter husband in 1969

YATHIRAJU @ Bengaluru

"NOWHERE in the world's history, in any civilisation, has such an inordinate delay been caused by any government. A delay of 55 years is an insult to the term humanity. Therefore, Revenue Department officials in Tumakuru should be honoured with a 'Special Service Medal' in recognition of their 'meritorious service'..."

This is how NK Lalithambika, 89-year-old widow of a freedom fighter from Tumakuru district, complained to Upa Lokayukta Justice B Veerappa against the state authorities, who she alleged neither handed over the possession of a 4-acre "hillock" land granted to her husband in 1969 nor allotted any alternative land, under the Freedom Fighters Quota.

The tragic part is that, after her husband TS Virupakshappa died, Lalithambika has been fighting for the possession of the land for 39 years, which is more than the period her husband fought for freedom. The land was allotted in Survey No. 26, Plot No. 7 at Vaddarahalli village in Tumakuru taluk in 1969.

'INSULT TO HUMANITY'

Disheartened by her battle, Justice Veerappa wrote to the Revenue Minister in the first week of August, stating that the land allotted was a 'hillock' that was unfit for cultivation. Even if it is considered, neither the possession of the said land was handed over, nor was an alternative land allotted to the elderly lady. Therefore, suitable action needs to be taken to provide an alternative land or site to her, equivalent to the land that was allotted to her husband in 1969, he said. "More than 55 years have elapsed, the grant is only on paper, and even that is a namesake grant. What is the purpose of granting land in a hillock area? This is nothing but cheating a freedom fighter and also his family. It is a clear case of cheating by the tahsildar, the then deputy commissioner. The present government should open its eyes and ensure an alternative site is granted to the widow of the freedom fighter," said Justice Veerappa, while seeking the intervention of the Revenue Minister.

> **A delay of 55 years is an insult to the term humanity. Therefore, Revenue Department officials in Tumakuru should be honoured with a 'Special Service Medal' in recognition of their 'meritorious service'**
>
> NK Lalithambika, widow of TS Virupakshappa

"With the money that we have spent for 55 years running from pillar to post seeking to fix the boundaries and handing over the possession of the land granted, we could have purchased suitable cultivable land on our own... Reposing faith in Swami Vivekananda's words, 'Arise, awake, and stop not till the goal is reached,' my struggle, which began in 1969, is still continuing at the age of 89," Lalithambika narrated her sorrow in her complaint to the Upa Lokayukta.

12 Bangladeshis, including 5 kids, detained in Kolar

V VELAYUDHAM @ Kolar

KOLAR police have detained 12 persons, including five minors, all suspected to be Bangladeshi nationals. The detainees will be produced before the Foreigners Regional Registration Office (FRRO) for further action. The police are verifying multiple details, including the authenticity of Aadhaars reportedly held by some of them.

SP B Nikhil told *The New Indian Express* that Srinivasapura police received a tip-off from the public about suspicious individuals collecting waste bottles and cotton. Acting on the information, a police team rushed to the spot and found a couple engaged in the activity.

The duo, identified as Mohammed Javeed Islam (22) and his wife Jannathi Athar (19), were taken to the police station. Upon questioning, they revealed they were permanent residents of Bangladesh and were in possession of Bangladeshi National Identity Cards. They also have two children. They disclosed the names and locations of others connected to them.

A police team subsequently traced the remaining members of the group to Nandagudi and brought them to Kolar. Except for the minors, all were found in possession of mobile phones. A technical team is examining the devices.

The police suspect that two of the adults possess Aadhaar cards. The SP said even the two children, born in India through home deliveries without hospital records, are being verified as part of the investigation.

Preliminary investigation reveal that most of the group had been living in India in temporary roadside tents for the past two years, while one man, Badal (38), had been staying for eight years. Those detainees include Badal (38), Mohammed Javeed Islam (22), Mohammed Nazarul (40), Mohammed Faizal (22), Jannathi Athar (19), Morshid Akthar (33), Sameelin (30), and five minors.

The men and women have been housed separately under security, and the police are providing them food. During questioning, it emerged that each adult had paid ₹20,000 to a Bangladeshi resident, who allegedly dropped them in Howrah, West Bengal, from where they began moving from place to place. "All of them will be produced before the FRRO on Saturday," the SP added.

BLOW TO OPPN

IN A FIRST, TDP WINS ZPTC BYPOLL IN YSRCP BASE PULIVENDULA

Jagan's party loses deposit; Results show shift of ordinary voters to ruling party: Experts

EXPRESS NEWS SERVICE @ Kadapa

THE Telugu Desam Party (TDP) delivered a stunning blow to the YSRCP, securing resounding victories in the Pulivendula rural and Vontimitta ZPTC by-elections, shattering the YSR family's long-standing dominance in these strongholds. In Pulivendula, a bastion of the YSR family for over four decades, the TDP achieved a historic milestone by capturing the ZPTC seat for the first time since its inception.

In the Pulivendula rural ZPTC election, TDP candidate M Latha Reddy, wife of Pulivendula constituency TDP incharge B.Tech Ravi, defeated YSRCP candidate T Hemanth Reddy by a margin of 6,033 votes. Out of 7,638 votes polled, Latha Reddy secured 6,716 votes, while Hemanth Reddy managed only 683 votes, losing his deposit. The election also featured Congress candidate Shivakalyan Reddy and eight independents, including former minister YS Vivekananda Reddy's murder case accused Yadati Sunil Yadav, who received just two votes.

Observers noted that despite YSRCP allegations of violence and bogus voting, the results indicate a strong shift of ordinary voters towards the TDP.

In the Vontimitta ZPTC election, TDP candidate Muddu Krishna Reddy defeated YSRCP's Iragamreddy Subbareddy by 6,267 votes. Out of 19,836 votes polled, Muddu Krishna Reddy secured 12,780 votes, while Subbareddy managed 6,513. CEO Obulamma also presented the victory certificate to Muddu Krishna Reddy.

Political analysts attribute the wins to voter support, despite YSRCP allegations of electoral malpractices. Chief Minister N Chandrababu Naidu treated the elections as a prestige battle and employed a strategic "Kuppam formula" to counter YSRCP's influence.

Guv: Crimes on rise in TN; He's turning Raj Bhavan into 'political bhavan': DMK

EXPRESS NEWS SERVICE @ Chennai

IN his customary address on the eve of the Independence Day, Tamil Nadu Governor RN Ravi said there is an urgent need to address the challenges the state is facing. He mentioned four challenges in particular - education and social discrimination of the poor and marginalised, rising suicide rates, increasing incidences of drug abuse among youth, and surging sexual crimes against women and children.

However, the Ruling DMK dismissed his remarks as being in line with what it termed as Ravi's agenda of acting like an agent of the BJP. Highlighting some of the parameters where TN had performed well in contrast to the governor's statements, DMK's principal secretary and Municipal Administration Minister KN Nehru said even Union Home Minister Amit Shah would laugh if he reads Ravi's remarks.

TN CM STALIN TO BOYCOTT GUV I-DAY RECEPTION

TN CM MK Stalin will be boycotting the At Home Reception to be hosted by Governor RN Ravi at the Raj Bhavan on Friday to mark the Independence Day celebrations, to protest against the governor's activities which, according to the government, have been going against the interests of the people of Tamil Nadu. Higher Education Minister Govi Chezhiaan will boycott the convocations of Alagappa University and Thiruvalluvar University to be held on August 18 and August 19, respectively. However, the government did not clarify whether the ministers and senior officials of the state will attend the At Home Reception or not.

RN Ravi

MK Stalin

He said the governor's remarks were a result of his frustration over a PhD scholar's refusal to accept the degree from him during the convocation of Manonmaniam Sundaranar University this week and the boycott of the At Home reception on Independence Day by various parties. Nehru accused the governor of converting the Raj Bhavan into a "Political Bhavan", which is acting as another state headquarters for the BJP.

Ravi said there has been over 56% increase in Pocso cases in 2024 while incidents of molestation of women have jumped by over 33%. "Our sisters and daughters are scared to come out of their houses to pursue their dreams, it will cast a dark shadow over our future,"he said. He expressed concerns over declining state of public education.

Couple found dead in hotel at Puri, suicide suspected

ENS @ Bhubaneswar

A couple from West Bengal was found hanging from the ceiling fan of their room in a hotel at Chakratirtha Road under Sea Beach police station in Puri on Thursday. The man and woman, who belong to Purba Bardhaman district of the neighbouring state, are reported to have been dead since the last two days, but it went undetected.

Police said, the man aged around 32 and the woman (25) had checked in on August 9.

They were informed by the hotel manager about a foul smell emanating from the room at around 5 pm on Thursday and rushed to the hotel. The door was broken in presence of an executive magistrate and duo was found hanging from the ceiling fan. Their bodies were recovered. Police immediately informed both their family members about the incident. The police found out that the couple was in a relationship earlier. However, their families were opposed to the association and had got them married to separate persons against their will a few years back. The two reportedly eloped some days back and came to Puri on August 9. A missing complaint had also been lodged by their families in this regard in the local police station in West Bengal, said sources.

Police suspect they died by suicide hanging from the ceiling fan's hook using a rope.

EXPRESS READ

No immediate threat to Nimisha, apex court told

New Delhi: The Supreme Court was informed on Thursday that there was "no immediate threat" to Indian nurse Nimisha Priya who is on a death row in Yemen for murder. The counsel for petitioner organisation Save Nimisha Priya International Action Council, which is extending legal support to Priya, requested a bench of Justices Vikram Nath and Sandeep Mehta to adjourn the matter. The SC was hearing a plea seeking a direction to the Centre to use diplomatic channels to save the 38-year-old nurse from Palakkad in Kerala who was convicted of murdering her Yemeni business partner in 2017. "Negotiations are going on. As of now there is no immediate threat. Kindly adjourn it by four weeks. Hopefully, everything will be over by that time," the counsel said. "Let this matter be listed after eight weeks," the bench then said. The petitioner's counsel said they would mention the matter before the top court if there was any urgency. *PTI*

Pontiff from Kalaburagi passes away

ENS @ Kalaburagi

THE eighth Peetadhipati of Shri Sharanabasaveshwara Samsthana Poojya Sharanabasavappa Appa passed away at Dasoha Mahamane of the Sharanabasaveshwara Samsthana here at 9pm on Thursday. He was 91 and was suffering from age-related diseases. Before his death, he was brought to the Dasoha Mahamane.

He is survived by his son, Chiranjivi Doddappa Appa, the 9th Peethadhipati of Sharanabasaveshwara Samsthana, his wife Poojya Dakshayani Avva, chairperson of Sharanabasaveshwara Vidyavardhaka Sangha, and his daughters.

He revolutionised education in Kalaburagi by starting various educational institutions and established the Sharnbasva University a few years ago. He became the eighth Peethadhipati of the Samsthana in the year 1983. According to sources, his body would be kept on the premises of Sharanabasaveshwara Temple on Friday morning. Kalaburagi DC Fouzia Taranum said that Independence Day celebrations would be held in a simple manner in Kalaburagi, and there would be no cultural activities.

Man files complaint with SIT claiming sister went missing in 2012

DHARMASTHALA CASE

EXPRESS NEWS SERVICE @ Mangaluru

A fresh complaint has been filed with the Special Investigation Team (SIT), which is probing the alleged Dharmasthala mass burial case, by a person claiming that his sister went missing in 2012 and is yet to be traced.

The complainant named Nithin Devadiga, speaking to reporters outside the SIT office, said that his sister Hemalatha is missing since 2012. "Poonjalakatte police had filed a case but out of two persons including my sister, only one returned home. My sister and another person went to Dharmasthala temple but she did not return. We met SIT and are hopeful of getting justice. She was a beedi roller. We had lodged a complaint with police in 2012 and they said they will respond if they find her, but even after so many years we could not trace her. We will know when the person who took my sister to Dharmasthala is questioned by the police. That person is a neighbour. We suspect that person only," he said.

Dakshina Kannada SP Dr Arun K said that a person named Nithin Devadiga from Kavalamudur in Bantwal has lodged a complaint at Poonjalakatte station that his sister, aged 17 then had left for Dharmasthala temple and didn't return home. She had gone missing in 2012. His complaint has been received and necessary action will be taken, the SP said.

New 'burial spot'

The SIT identified a new alleged burial spot near Kanyadi and dug it on Thursday but didn't find any human remains. The witness-complainant had shown a new spot which was marked as Site No. 17. The witness-complainant was also taken to a place near Dharmasthala bus stand where he claimed to have stayed when he was employed as the sanitation worker.

Police stand guard near a place where the witness-complainant claims to have stayed when the SIT took him there for a mahazar on Thursday | EXPRESS

'Stray dog crisis can be resolved by regulating population'

EXPRESS NEWS SERVICE @ Cuttack

AMID the raging controversy over the Supreme Court order, Rashtriya Swayamsevak Sangh (RSS) chief **Mohan Bhagwat** on Thursday said stray dog crisis can be resolved by regulating the canine population, and not by sending the animals to shelter homes.

All animals have the right to live, said Bhagwat speaking at the birth-anniversary celebrations of Srila Prabhupada and centenary celebrations of Sri Sachchidananda Math organised by the Gaudiya Vaishnava Sammilani at Cuttack. He emphasised the fine equilibrium between man and nature. "The crisis can be solved by regulating the street dog population and not by sending them to shelters," he said. "While milking cows, Indians take some milk and leave the rest for the calf which is an art of striking a balance between man and nature. The nature should be conserved by maintaining a balance between development and the environment," he said.

Bhagwat went to Puri where he visited the Shree Jagannath Temple to seek blessings of the deities and then met Shankaracharya Nischalananda Saraswati.

The RSS chief arrived here on Wednesday evening. He is scheduled to hoist the national flag at Utkal Bipanna Sahayata Samiti office in the capital city and address the gathering on Independence Day.

IMD warns of more rain over TG

EXPRESS NEWS SERVICE @ Hyderabad

TELANGANA remained on high alert on Thursday as the Indian Meteorological Department (IMD) warned of more heavy to very heavy rains over the next two days. While Hyderabad stayed mostly dry despite an orange alert for the second consecutive day, several districts across the state reported heavy rains, swelling rivers, flooding low-lying areas and prompting precautionary evacuations.

Rajendranagar recorded the highest rainfall in the city limits at 52.3 mm between Wednesday and Thursday. The subdued rains left many wondering about the "missing monsoon" despite a low-pressure area active over the Bay of Bengal.

Elsewhere, Nizamabad's Rudrur recorded 9.9 cm, followed by Pothangal with 7.23 cm. Nagarkurnool's Kalwakurthy mandal received 19.8 cm, Uppununthala 16.8 cm, Chandrugonda in Bhadradri Kothagudem 12.8 cm, Mellacheruvu in Suryapet 12.18 cm and Ghanpur in Wanaparthy 11.75 cm. In Mahbubnagar district, a swift rescue operation by the Telangana State Disaster Response Force saved 10 shepherds and 800 sheep stranded on an island near Polkampally village in Musapet mandal after sudden heavy rains flooded the area. All were brought to safety without injury. All departments concerned have been put on high alert and a round-the-clock control room has been established given the heavy to very heavy rains forecast in Sangareddy over the next two to three days, Sangareddy Collector P Pravinya said.

DELHI CAP ON SCHOOL FEES SHOULD BE EMULATED ELSEWHERE

PRIVATE schools in the national capital can no longer arbitrarily raise fees every year. The recently passed Delhi School Education (Transparency in Fixation and Regulation of Fees) Bill, 2025 confronts the idea that quality education must come at a prohibitive cost. It affirms that education is a right, not a privilege for the wealthy, and aims to make private schooling more accessible, accountable, and fair. It encourages private schools to balance autonomy with social responsibility.

The Bill curbs arbitrary fee hikes in private unaided schools through a structured three-tier system. Schools must submit a proposed fee structure for three years, with revisions allowed only once during that period, based on genuine expenses such as infrastructure, staff salaries, and operational costs. Violations attract penalties. The regulation applies uniformly across private schools, removing the previous distinction for schools operating on concessional or government-allotted land. This change addresses concerns that many schools outside the land clause previously escaped scrutiny while charging high fees.

For decades, rising private school costs have created severe dilemmas for parents. Fragmented and ineffective regulation left families vulnerable, while private schools operated largely unchecked, opening themselves to criticism that profit, not educational welfare, drives them. For many less privileged families, even a modest fee increase from ₹1,000 to ₹1,500 can represent an overwhelming financial burden. And some private schools are known for their galloping fees that make even the prosperous frown. The Bill introduces strict oversight and accountability so that random hikes do not blindside parents and schools adhere to reasonable practices that balance their costs and parents' concerns. While the legislation does not retroactively review or penalise past fee hikes and does not explicitly cover playschools or preprimary centres unless legally recognised, it has elicited a positive reaction in general. The matter of inaction on past hikes remains a niggle for a section of parents.

Schools—private, aided or government-run—are the first formal platform for imparting knowledge and must remain equitable. The Delhi School Education Bill is a necessary step against the commodification of education and sets an example for other states to follow suit. It should be the stepping stone to tackle the other, bigger blot on the education sector—uncontrolled fee increases in private universities across the country.

PREPARE FOR INFECTIOUS BIRD FLU VIRUS VARIANT

RESEARCHERS from the Indian Institute of Science's department of biochemistry have cautioned about a new threat on the horizon that requires urgent attention from the central and state health authorities. They have discovered that the currently circulating and dominant 2.3.4.4b variant of the H5N1 avian influenza virus has undergone genomic mutations that significantly increase the threat of humans getting infected with bird flu. It poses the threat of an outbreak that could be much more challenging to prevent or manage than the Covid pandemic.

The IISc team analysed 7,000 protein sequences of the 2.3.4.4b H5N1 variant found in birds, 820 sequences from non-human mammals, and 35,000 human H1N1 (swine flu virus) and H3N2 (seasonal influenza virus) sequences. They identified rapidly changing amino acids in the sequences, used multiple tools to identify similar regions in various proteins, constructed an evolutionary trend to understand how the viral species diverged from their common ancestor over time, and detailed specific variations in all the proteins of H5N1 infecting non-human mammals and humans to conclude that the 2.3.4.4b variant is much more harmful to humans than its predecessors.

The researchers also cautioned that foxes, as intermediary hosts, harboured the H5N1 strain with the highest human adaptive potential. Indian foxes are spread widely across the subcontinent, mainly in agricultural areas near human settlements, although in low densities. Rural populations can potentially be more exposed to infected birds and non-human mammals, monitoring of which would be a Herculean challenge. According to Wildlife SOS, about 370 species of migratory birds from 29 countries visit India every year.

The challenges of managing a highly infectious bird flu outbreak would be vastly different from those posed by the Covid pandemic, which could be controlled at human entry points. The World Health Organization has recorded 972 cases of confirmed H5N1 influenza leading to 468 deaths globally between 2003 and February 2025. India has reported two deaths in 2021 and 2025 from Haryana and Andhra Pradesh, although these were caused by the 2.3.2.1b H5N1 variant. The virus commonly spreads from infected birds and non-human mammals to humans, rarely from humans to humans, rendering India's vast rural hinterland vulnerable to its influx and spread. It's time for the authorities to prepare to tackle this steep challenge and inform the nation about the steps.

QUICK TAKE

DANGEROUSLY ARTIFICIAL

A cognitively impaired 76-year-old American recently went to "visit a friend" in New York and never returned home. It was later found that he was going to meet 'Big sis Billie', an artificial intelligence chatbot variant used by Meta. After romantic chats on Facebook Messenger, he rushed to meet her at a given address and fatally stumbled on the way. This tragedy and other reports of adolescents indulging in intimate chats with bots raise a serious question on the limits needed for algorithms. Things become dangerous when popular generative AIs give out false information like addresses. It is one more reason for India to work on a comprehensive law regulating AI, like several other jurisdictions are doing.

It's a puzzle why the immiserated haven't risen in popular revolt. Disaggregated govt handouts have helped in patches. It isn't utopian to consider a more stable solution

WHY POVERTY HASN'T LED TO SOCIAL UNREST

AKEEL BILGRAMI

Sidney Morgenbesser Professor of Philosophy, and Professor, Committee on Global Thought at Columbia University

TO read the pervasive commentary in the economic sections of the world's newspapers on what the globalising neoliberal turn in political economy has wrought in the last few decades in India, one would think that it has all been for the good—its economy has been growing, as has the middle class, and poverty has been reduced.

Yet, serious economic analysis has fundamentally challenged this as, in one crucial respect, downright false. Measurement of poverty in India, by criteria that are sound rather than skewed, points to increased immiseration of the worst-off in numbers as large as ever, despite a swelling middle class.

A puzzle arises then as to why, given this growing immiseration, there has been no explosion of social unrest. A familiar answer points to how people are deflected from their suffering by the Hindutva politics of identity. There is, no doubt, some truth in this. But deflections of that sort cannot for long prevent the intolerability of the suffering—especially if it is as extreme as studies have shown it to be—from prompting popular anger and agency. So, the puzzle remains.

In recent years, the influential work of economist Kalyan Sanyal implies a different explanation. Its argument in summary is this. Capitalism of recent decades in India dispossesses the peasants from their land, but cannot absorb them in industrial labour, as was done in Europe in earlier centuries (nor even in what Karl Marx called the 'reserve army'). It thus creates a very large population which is outside of the corporate capitalist political economy, hence unable to morph into a unified class formation with the familiar potential for forging the agencies of resistance attributed to the 'proletariat' in an earlier phase of capitalism.

But, Sanyal argues, at least in democratic societies, the State cannot ignore their condition to the point that they simply will perish in large numbers. Invoking ideas from philosopher Michel Foucault, Sanyal suggests that in our neoliberal times various 'governmental technologies' respond to the demands made in a very disaggregated form (there being no unified proletariat) by different sections of this immiserated population—some seeking shelter as squatters, as it might be, others seeking loans till they are able to find some work, yet others seeking cash transfers or even direct delivery of food to meet the most elemental needs.

SOURAV ROY

These are, essentially, ameliorative accommodations that various State institutions—national or regional—make when the demands for them from one or other section of the population seem unignorable and, *qua* accommodations, they are not always subsumable under the framework of what the law permits. It may often be that the State's motivations for these arrangements are to gain electoral favour from that particular demographic.

Such claims for 'governmentality', thus, can be seen as directly addressing the puzzle I have raised. But it is important to find the right description of the model it posits, and not to see it as claiming more than it does. If these ameliorations end up being too big a strain on capitalist accumulation, they may well be withheld by the State and the capitalist economy it serves. The model is thus delicately poised, a sort of equilibrium fulfilling opposing demands—of capital and those that capital renders most abjectly immiserated.

What would be wrong are the descriptions often given of the model as representing a critique of neoliberal capitalism. A highly deprived population group can resist the worst effects of neoliberalism by demanding and getting such accommodations; but that resistance does not amount to a critique of neoliberalism. There can be no notion of a critique of x that does not propose some method that can at least constrain—and perhaps, if the constraints are recursively developed, go on to undermine—x. But Sanyal describes accommodations within a neoliberal political economy. Constraining or undermining is not so much as sought.

No doubt, this modesty in what is sought owes to the fact that capital in our time is able to constantly destabilise more ambitious efforts of States to constrain capital so as to provide the most basic necessities to their citizens. It is not in the nature of capitalism to tolerate such constraints for very long.

Yet, we might ask, is it so unredeemably utopian to aspire to a regime of fundamental economic rights—to food, housing, health, and extending to work and education—to tackle the immiseration? I say fundamental rights—and mean it. I don't mean policies devised by a cabinet and their routine ratification in legislatures. I mean rights inserted in the core of the Constitution that cannot be overturned by anything less than a re-formation of a constituent assembly. Rights in this fundamental sense possess a feature that speaks directly to the tendencies of capital to destabilise the constraints on it.

They are commitments in a very special sense, they are Ulysses-like. Recall that Ulysses's commitment to Penelope was such that he tied himself to the mast so that even when he was seduced by the sirens' song, he was compelled to keep his faith. If economic rights were commitments in that stable sense and if, in order to implement them, one has to put certain constraints on capital, then those constraints would, *eo ipso*, have a transitive stability.

I can almost hear the protest: "The Indian economy cannot afford the expenditures required to meet such commitments." But sober and careful estimates of the financial resources needed have suggested that it can be raised by imposing only two taxes on only the top 1 percent of the population: a 2 percent wealth tax, and an inheritance tax of one-third on whatever annual sums are involved in the transfers specified in wills.

To call this a utopian proposal is, quite literally, to perceive a molehill as a mountain. What it needs is the political will of a political class to propose it and to construct an appropriate public discourse by which the electorate can be persuaded to adopt it. There is nothing intrinsically heroic—neither Herculean, nor Promethean—about the tasks themselves. But in the current ideological climate, it does take common humanity to summon the will to pursue them and then stay the course in their pursuit when the hegemon of globalised finance puts obstacles in their path. Is the INDIA bloc listening?

JUDGING IN THE AGE OF POPULISM

SAAI SUDHARSAN SATHIYAMOORTHY

Advocate, Madras High Court

IN recent years, nation-states around the world have been besieged by a new wave of populism. Old and glorious democracies have had their roots shaken, with their *populus* harbouring considerable disenchantment with age-old institutions. The new wave defies easy political pigeon-holing, as billionaires become proclaimed champions of the down-trodden and the moral values of the neoliberal coalition peter out.

This interregnum not only reverses the advancements made by economic liberalists towards a globally unified polity, but has also led to a *kulturkampf* between self-proclaimed democrats and populists, both of whom feel the bite of the pool rapidly drying up and elected officials failing to offer any clear solution. The heedless push from elite liberal institutions to acculturate the ordinary masses to universalist values have backfired. In many ways, this interregnum manifests the underlying conflict between the ideal of democracy as a system of values and of democracy as a governing institution.

The institution of the court and the democratic and constitutional principles it seeks to protect are seen by this alliance as roadblocks rather than as guarantors of impartial justice. Another common narrative thread that carries through is the avowed belief that executive powers cannot be constrained by unelected judges. There is a strong belief that the law consists only of legislation and that any judicial development of law or review of such legislation is illegitimate.

Justice Robert Reed, president of the UK Supreme Court and its senior-most judge, while reflecting on how the judiciary can maintain public confidence at this year's Peter Taylor Memorial Address, observed that "populism can undermine the rule of law by diminishing trust in the institutions which uphold the law and undermining support for judicial independence". He further admitted no democracy is immune to these tendencies but goes on to raise the question, "we cannot afford to be complacent, if we want to protect the rule of law. So how should the judiciary act so as to maintain public trust in the courts?"

However, we must remember that the situation the UK judiciary finds itself in is not exactly analogous to our own. While India is undergoing what can be termed as a cycle of majority, with the government asserting its predominant position within the constitutional framework, its institutions also face the issue of endemic corruption. Even with that baggage, compared to others in public life, the judiciary finds itself treated with considerable respect. However, unlike the UK, there has been a marked upsurge in direct criticism that our judiciary has faced from the executive.

While criticism of judicial decisions is to be expected in a democracy, the criticism we are concerned with rarely engages with the actual reasonings in

EDINBURGH LAW SCHOOL

Populist leaders often view the judiciary as an obstacle to their agenda. That makes it challenging for courts to uphold the rule of law without losing the people's trust. A few ideas from Justice Robert Reed of the UK may be pertinent in dealing with the deficit

judgements. Pertinently, there has also been a sustained campaign in certain sections of the internet building particular narratives against decadesold constitutional verities.

It is at this juncture that Lord Reed's inquiry and recommendations assume particular significance. Firstly, he recommends that while a court "has to be fearless in defending our constitutional values, it also has to exercise judgement and display a sensitivity towards the other institutions of the state, and towards public opinion, if it is to avoid being perceived as a political actor". Secondly, he recommends judgements be measured and neutral, thereby demonstrating they are based on law and exercise of legal expertise and experience and not on personal convictions. Thirdly, he stresses on the importance of public outreach in the form of livestreaming of proceedings, maintaining a hands-on and active communication team and establishing educational schemes to reach out to pupils at schools. Lord Reed's prescriptions are valuable and create avenues for the public to interact with the judiciary.

To its credit, the Indian judiciary has been making efforts to make justice accessible. The e-Courts Project represents one of the largest judicial digitisation initiatives by sheer scale, connecting 18,735 district and subordinate courts. The Supreme Court Vidhik Anuvaad Software (SUVAS), launched in 2019, has translated thousands of Supreme Court judgments into multiple vernacular languages using artificial intelligence. Yet more needs to be done. India's technological achievements through e-courts and SUVAS must be complemented with sustained and planned public outreach.

The judiciary also needs dedicated teams who can help judges craft accessible language, provide background briefings to journalists, and manage public messaging during controversial decisions. Perhaps most critically, the Indian judiciary must move beyond its often-adversarial relationship with parliament and towards structured dialogue.

While we must strive to better adopt Lord Reed's recommendations to our unique needs, we must be mindful that they are technocratic in nature and may not address the underlying causes of the trust deficit. Courts in developed nations face the inevitable backlash of decades of judicial enforcement of market discipline and acculturation.

On the other hand, our problems run much deeper as our judiciary faces urgent systemic issues in the form of corruption and an appointment system that has become a lightning rod. However, the needed reform must ensure independence from executive interference.

PREZ HAILS OP SINDOOR, SAYS ECONOMY IN PINK OF HEALTH

RAJESH KUMAR THAKUR
@ NEW DELHI

IN her address to the nation on the eve of country's 79th Independence Day, President Droupadi Murmu hailed Operation Sindoor as a watershed in India's counter-terror response and asserted that, despite global headwinds, the country remains the world's fastest-growing major economy with all key indicators "in the pink of health. "With strategic clarity and technical capability, Operation Sindoor destroyed terrorist hubs across the border," said President Murmu.

Praising the armed forces for their decisive action, President said "I believe, Operation Sindoor will go down in history as an example in humanity's fight against terrorism." "In our response, what was most noticeable was our unity, which is also the most befitting response to those who wanted to divide us... The world has taken note of India's stance, that we will not be the aggressor, but we will not hesitate to retaliate in defence of our citizens," President Murmu said.

The President also underlined that the operation was a success story of Atmanirbhar Bharat in defence. "Our indigenous manufacturing has achieved the critical level that makes us self-sufficient in meeting many of our security requirements," she noted, lauding India's growing defence capabilities post-Independence.

Turning to the economy, President Murmu struck an optimistic tone. "With a GDP growth rate of 6.5% last fiscal, India is the fastest-growing major economy in the world," she said. Despite a challenging global environment, she highlighted controlled inflation, rising exports, and a vibrant digital economy as signs of strong economic fundamentals. "All key indicators show the economy in the pink of health," she added. This assertion comes in the wake of many global headwinds, including the tariff tussle with the US, and President Donald terming Indian economy is dead. The President credited these gains to "carefully calibrated reforms and sagacious economic management," while also applauding farmers and workers for their contribution. The President spotlighted government efforts to reduce poverty, improve healthcare, and expand infrastructure. Welfare initiatives, including Ayushman Bharat, metro rail expansion, and the Jal Jeevan Mission, were cited as examples of inclusive governance. She noted that the widening reach of social welfare had also led to a fall in income inequality and shrinking regional disparities.

Marking Vibhajan Vibhishika Smriti Diwas, the President reflected on the horrors of Partition, saying the day serves as a solemn reminder of the cost of division. "We pay tributes to the victims of the follies of history," she said, linking the memory of Partition to the enduring importance of national unity, a theme echoed throughout her address.

She reiterated that the country, as the "mother of democracy," must continue to uphold the values of justice, liberty, equality, and fraternity.

● Major advancements in country's rocketry and space exploration ● Thrust on securing supply chains amid changing geopolitical dynamics, reducing arms imports

Sky not the limit for journey to the stars

HRITHIK KIRAN BAGADE
@ Bengaluru

FROM ancient stargazers and astronomers to the invention of zero and grand architectural marvels aligned with celestial events, India's scientific temper was evident long before the space age began. Naturally, this spirit paved the way for advancements in rocketry and space exploration.

After gaining Independence, precisely 78 years ago on August 15, 1947, India emerged onto the global scientific stage just as the Cold War began, and the USA and USSR embarked on a fierce Space Race. While the superpowers competed for supremacy, India took a different path — one rooted in harnessing space technology to address developmental challenges.

That same year, Dr Vikram Sarabhai (1919-1971), hailed as the father of India's space programme, founded the Physical Research Laboratory (PRL) in Ahmedabad. He initially focused on cosmic ray and upper-atmosphere research, gradually expanding into broader space science. Sarabhai envisioned that space technology could aid national development, especially in weather forecasting, telecommunications, and resource management.

India's space journey began in 1961 when Prime Minister Jawaharlal Nehru placed space research under the Department of Atomic Energy. A year later, the Indian National Committee for Space Research (INCOSPAR) was established under Dr. Homi J. Bhabha, with Vikram Sarabhai as chairman. Thumba in Kerala, near the magnetic equator, was chosen as the site for the Thumba Equatorial Rocket Launching Station (TERLS). A local church became the first control room. On November 21, 1963, India launched its first rocket, a Nike-Apache, with parts transported on bicycles.

INCOSPAR evolved into the Indian Space Research Organisation (ISRO) on August 15, 1969. In 1972, ISRO was brought under the newly formed Department of Space (DOS). India's first satellite, Aryabhata, was launched in 1975.

In 1971, ISRO set up the Satish Dhawan Space Centre (SDSC) in Sriharikota. India's first satellite launch vehicle, SLV-3, flew in 1979. The 1981 launch of the experimental satellite APPLE from French Guiana paved the way for the INSAT series, starting in 1982, supporting weather, telecom, and broadcasting services.

AIMING HIGH

- **1962:** India's space programme begins with the Indian government establishing INCOSPAR under the Department of Atomic Energy (DAE)
- **1963:** First sounding rocket launched
- **1972:** Space Commission and Department of Space constituted, and ISRO brought under government control
- **1975:** India's first satellite, Aryabhata, was launched
- **1982:** INSAT-1A launched to trigger a series of communication satellites
- **1988:** India launches IRS-1A
- **2008:** India reaches the Moon's orbit with Chandrayaan-1
- **2014:** Mars Orbiter Mission (Mangalyaan) launched
- **2023:** India lands on Moon with successful touchdown of Chandrayaan-3

The 1990s brought major breakthroughs. The Polar Satellite Launch Vehicle (PSLV), first launched in 1994, became ISRO's workhorse, later powering missions like Chandrayaan-1 (2008) and Mangalyaan (2013). The Geosynchronous Satellite Launch Vehicle (GSLV) debuted in 2001, enabling heavier payloads. The Indian Remote Sensing (IRS) program, operational since 1988, provided key data for agriculture, water, and disaster management.

Chandrayaan-1 discovered water on the Moon. Though Chandrayaan-2's lander crashed in 2019, the orbiter remains active. On August 23, 2023, Chandrayaan-3 landed successfully near the lunar south pole, a global first. The rover explored the Shiv Shakti Point, firmly establishing India as a major space power.

On the interplanetary front, Mangalyaan was a game-changer. Launched on November 5, 2013, and successfully orbiting Mars by September 24, 2014, it made India the first Asian nation to reach Mars, and the only country to do so on its first attempt. The mission provided valuable data on Martian surface features and atmosphere, all at a fraction of the cost of comparable missions.

In the last few weeks India has been very active in space. It sent its first astronaut – Gp Capt Subhanshu Shukla – to the International Space Station on board the Axiom-4 Space mission; and launched the NASA-ISRO Synthetic Aperture Radar (NISAR) satellite to provide more sophisticated data on earth, oceans glaciers and ice and forewarn about impending natural disasters. This happened 41 years after Sqn Ldr Rakesh Sharma became the first Indian to go into space on a Soviet space mission.

Looking ahead, ISRO is preparing for Chandrayaan-4, which aims to bring lunar samples back to Earth. The Gaganyaan mission, India's first crewed spaceflight, is also on the horizon. The country is also planning to establish the Bharatiya Antriksh Station (BAS) — a modular space station, signaling long-term ambitions in low Earth orbit, besides forays planned to Mars. Sky is now not the limit for India.

Defence indigenisation to stay course

MAYANK SINGH @ New Delhi

INDIA is fast-tracking indigenous production across key military platforms—ranging from small arms and artillery to fighter jets, warships, and submarines—to reduce dependence on imports and secure supply chains amid changing geopolitical dynamics.

According to defence officials, "the changing geopolitics portends serious supply-chain disruption if our military remains largely dependent on imports." Recent engine shortages during the Russia–Ukraine conflict underscored these vulnerabilities, with delays even impacting delivery of fighter jet engines from the US.

One notable example was the supply issues faced by Hindustan Aeronautics Limited (HAL) with General Electric engines powering the indigenous Light Combat Aircraft (LCA) Tejas. While the situation has improved this year, the episode highlighted India's need to localise critical components. HAL is set to induct 180 LCA Tejas Mk 1A aircraft—an upgraded variant of the indigenous Tejas—over the coming years.

Another marquee initiative is the Advanced Medium Combat Aircraft (AMCA) project, India's bid to enter the exclusive club of nations capable of building fifth-generation fighter jets. The twin-engine stealth aircraft will feature an internal weapons bay, advanced sensors, and supercruise capability. With prototype development expected post-2030, AMCA has entered the execution phase, with an industrial development model in place.

Meanwhile, the AK-203 assault rifle—christened 'Sher'—is slated to be fully indigenous by December 2025. Manufactured at IRRPL's Amethi facility under a ₹5,200-crore joint venture with Russia, the rifle will gradually replace the INSAS rifles. So far, 48,000 rifles have been delivered with 50% local content, and another 70,000 will follow with 70% localisation.

The Indian Navy has also pushed hard on indigenisation. Currently, 61 warships and submarines are under various stages of construction within India. Notably, two stealth frigates—Udaygiri and Himgiri—are slated to be commissioned in Visakhapatnam this month. The recently inducted INS Vagsheer marks the sixth Kalvari-class submarine to enter service.

The Army, too, has made advances. Indigenous long-range artillery guns are now operational, and the Light Tank Zorawar, designed for high-altitude deployment along the northern borders, is in an advanced stage of development.

Alongside offensive platforms, efforts are underway to localise radar systems, sensors, and surveillance equipment. However, engine manufacturing—particularly for aircraft—remains a critical weak spot. While helicopter engine production has begun under joint ventures, deeper R&D investment is essential to close the gap.

Missile systems—like Akash, Agni, and Prithvi—remain some of India's most successful indigenous programmes. The Indo-Russian BrahMos cruise missile is a standout, with exports already underway, making it India's first major defence export in this category.

While India's defence modernisation remains a work in progress, the shift toward self-reliance is unmistakable. A robust combination of government policy push, strategic joint ventures, and domestic capability building is steadily transforming India from a major arms importer into an emerging defence manufacturer of consequence.

MAKE IN INDIA

Indian Navy warships and submarines are now being built entirely within the country

Indigenous artillery guns and the light tank Zorawar are boosting Army capabilities

PARTITION REMEMBERED

RAJESH KUMAR THAKUR
@ New Delhi

AS India marks Partition Horrors Remembrance Day on August 14, the country confronts one of the darkest chapters of its independence—the violent and chaotic Partition of 1947 that created two nations, India and Pakistan, at a staggering human cost.

The Partition led to the largest mass migration of the 20th century. An estimated 15 million people were displaced, forced to flee across hastily drawn borders amid sectarian violence and fear. Entire families left behind homes, histories, and generations of shared life. Along the way, unspeakable horrors unfolded, mobs lynched innocents, women were raped or committed suicide to escape abduction, and "ghost trains" carrying corpses arrived at railway stations in chilling silence. The death toll is estimated to be over a million.

On Thursday, Prime Minister Narendra Modi took to X to reflect on the tragedy. "India observes #PartitionHorrorsRemembranceDay, remembering the upheaval and pain endured by countless people... It is also a day to honour their grit... and strength to start afresh," he said. Modi called the day a reminder of India's enduring responsibility to strengthen the bonds of harmony.

Union Home Minister Amit Shah also paid tribute, accusing the Congress party of dividing the country and hurting the pride of Maa Bharati. "The Partition led to violence, exploitation, and atrocities... The country will never forget this history and pain," he said, offering condolences to those who suffered.

Since 2021, the Modi government has officially observed August 14 as Partition Horrors Remembrance Day, aiming to institutionalise memory and acknowledge the trauma endured by millions. The BJP, in a post, described the freedom of 1947 as "drenched in blood," blaming the "lust for power" for the tragic aftermath. It cited the displacement of 12–20 million people and the deaths of up to 2 million.

Today, as survivors age and memories fade, India seeks to not just remember, but also learn. Partition was not just a geopolitical event, but a human catastrophe.

From Red Fort, reflection of nation's hopes

PREETHA NAIR @ New Delhi

AS India marks its 79th year of Independence, the tradition of the Prime Minister addressing the nation from the ramparts of the Red Fort remains more than a powerful and symbolic ritual reflecting the country's hopes, direction, and its evolving place in history.

Since the first Prime Minister Jawaharlal Nehru, each speech has served as a mirror to the nation's political climate and collective mood. Nehru's "Tryst with Destiny," delivered just after midnight on August 15, 1947, remains a memorable Independence Day speech in India's history. It marked the nation's foundational moment, laying out the urgent priorities of tackling poverty, inequality, and the widespread challenges of ignorance and disease.

Indira Gandhi's Independence Day speeches have often been politically charged and sometimes controversial. Her 1972 address focused on the Indo-Pakistani War of 1971 and celebrated India's victory, boosting national pride. However, her speeches during the Emergency period, particularly in 1975, emphasized national unity and security in ways that were seen as justifications for the imposition of the Emergency, a period marked by curtailment of democratic freedoms.

Prime Minister Narendra Modi's addresses have marked a departure from traditional bureaucratic language, bringing a more accessible and interactive style. His first Independence Day speech focused on social reform initiatives such as 'Clean India' and the 'Jan Dhan Yojana,' highlighting efforts to improve governance and citizen welfare.

In 2020, amid the Covid-19 pandemic, Modi spoke about the country's health infrastructure, vaccine development, and resilience, reinforcing a message of hope and progress. Modi also set a record by delivering the longest Independence Day speech from the Red Fort in 2024, speaking for 98 minutes.

Brothers and sisters, I assure that this country has a destiny. It is destined to work for the welfare of the world

PM Modi, Independence Day speech, 2014

Nine IAF , four Army personnel get Vir Chakra for role in Op Sindoor

Two others from MHA; 127 Gallantry Awards given to Armed Forces, CAPFs on I-Day eve

MAYANK SINGH & MUKESH RANJAN @ New Delhi

IN a rare instance of Gallantry Awards being conferred in peacetime, 15 Vir Chakras, wartime gallantry awards, were conferred by President Droupadi Murmu on Thursday on armed forces personnel for their roles in Operation Sindoor launched to avenge the killing of 26 civilians in Pahalgam.

A total of 127 Gallantry Awards and 40 Distinguished Service awards were given to the Armed Forces and Central Armed Police Forces (CAPFs) personnel on the eve of 79th Independence Day. The list of personnel awarded for Operation Sindoor included 13 from the armed forces -- nine from the IAF and four from the Army –who were conferred the Vir Chakra, the third-highest wartime gallantry award. Two recipients were from the Ministry of Home Affairs: Sub Inspector Mohd Imteyaj and Constable Deepak Chingakham.

There was also a rare list of the seven top-level armed forces officers awarded the Sarvottam Yudh Seva Medal for their role in Operation Sindoor. This award is given for exceptional operational planning, coordination and execution. President conferred 4 Kirti Chakras which are peacetime equivalents of the Mahavir Chakras of the war time. The other Gallantry Awards includes 15 Vir Chakras; 16 Shaurya Chakras; 2 Bar to Sena Medals (Gallantry). When the award is conferred more than once it is termed as Bar to the award.

The list also includes 58 Sena Medals (Gallantry), 6 Nao Sena Medals (Gallantry) and 26 Vayu Sena Medals (Gallantry). The 40 Distinguished Service awards include 7 SarvottamYudh Seva Medals, 9 Uttam Yudh Seva Medals and 24 Yudh Seva Medals. The President has also approved 290 Mention-in-Despatches, including 115 personnel of the Army, 5 of the Navy, 167 of the Air Force and 3 of the Border Roads Development Board (BRDB). The President's awards also include three Tatrakshak Medals (TM), Indian Coast Guard personnel in recognition of their acts of conspicuous gallantry. Two more TMs were given for exceptional devotion to duty and meritorious service.

Meanwhile, the MHA has released the list of 1,090 recipients of medals in different categories, including gallantry for Police, Fire Services, Home Guard & Civil Defence and Correctional Services, on the occasion of Independence Day. The 1,090 medals include 233 Gallantry Medals, 99 President's Medals for Distinguished Service and 758 Medals for Meritorious Service. In the Police category, 226 officers and personnel have been selected for the Gallantry Medal, 89 will be given the President's Medal for Distinguished Service, and 635 will receive the Medal for Meritorious Service.

The J&K Police have once again led the pack of state police organisations and the Central Armed Police Forces by securing a record 127 Gallantry Medals on the occasion of Independence Day 2025. Among the awardees is DSP, late Humayun Muzamil Bhat, killed during a fierce encounter in Kokernag, who has been posthumously honoured for his ultimate sacrifice in the line of duty.

The CRPF on its part bagged 20 gallantry awards, whereas the BSF got 16, the Uttar Pradesh Police (17) and the Chhattisgarh Police (14).

VIR CHAKRA AWARDEES

Group Captain Ranjeet Singh Sidhu, Group Capt Manish Arora, Group Capt Animesh Patni, Group Captain Kunal Kalra, Wing Commander Joy Chandra, Squadron Leader Sarthak Kumar, Squadron Leader Siddhant Singh, Squadron, Leader Rizwan Malik and Flight Lieutenant Aarshveer Singh Thakur are among, the IAF officers who have been awarded the Vir Chakra. Colonel Koshank Lamba of 302 Medium Regiment, Lt Col Sushil Bisht of 1988 Medium Battery, Naib Subedar Satish Kumar of 4 Dogra, and Rifleman Sunil Kumar of 4 Jammu And Kashmir Light Infantry are among Army personnel awarded.

SARVOTTAM YUDH SEVA MEDAL

Patriotism push: Sam Manekshaw, Usman now in NCERT textbooks

S LALITHA @ New Delhi

THE National Council for Educational Research and Training (NCERT) has released revised Urdu and English textbooks, celebrating the sacrifices of India's defence personnel and the courage of India's queens.

The objective is to inspire students and motivate them to contribute to nation-building. The updated textbooks are aligned with the National Education Policy 2020. The Ministry of Defence, in a statement on the Urdu Class VII book and the Class VIII English and Urdu textbooks, said, "The newly added chapters provide students with inspiring stories of courage and duty. Field Marshal Sam Manekshaw, India's first Field Marshal, is remembered for his exceptional leadership and strategic skills. Brigadier Mohammad Usman and Major Somnath Sharma, recipients of the Mahavir Chakra and Param Vir Chakra (posthumously), gave their lives in service of the nation and remain symbols of supreme sacrifice."

To promote the National War Memorial (NWM) as a key national landmark, the Ministry of Defence has partnered with the Ministry of Education and NCERT to include NWM and related references in school curricula. "Students will not only learn about India's military history but also absorb important lessons on resilience, empathy, emotional intelligence, and the significance of nation-building," the Ministry added.With colourful illustrations and detailed explanations, these books make reading engaging.

Brig Mohammad Usman, Field Marshal Sam Manekshaw and Major Somnath Sharma

Move aimed at motivating youth for nation-building

The objective is to inspire students. The Ministry of Defence, in a statement on the Urdu Class VII book and the Class VIII English and Urdu textbooks, said, "Field Marshal Sam Manekshaw, India's first Field Marshal, is remembered for his exceptional leadership. Brigadier Mohammad Usman and Major Somnath Sharma gave their lives in service of the nation and remain symbols of supreme sacrifice."

The Grade 8 English textbook reads almost like a thriller, vividly depicting the Badgam war and the heroism of Major Somnath Sharma, India's first Param Vir Chakra awardee. Leading 90 soldiers on November 3, 1947, he faced a brutal attack by 500 invaders from Pakistan in the Kashmir Valley and saved Srinagar, sacrificing his life. His famous words, "I shall not withdraw an inch but will fight to the last man and the last round", are highlighted.

Another hero featured is Captain Vikram Batra, the D Company commander and 'Shershah of Kargil', who captured Point 5140 on June 20, 1999, before succumbing to his injuries.

The Grade 7 English book has a full unit titled 'Bravehearts', presented as a Bengaluru student visiting the memorial in Delhi and describing the experience in a letter. Heroes like Lance Naik Albert Ekka and Major Padmapani Acharya of the Kargil War are featured. The textbooks also showcase the bravery of Rani Abbakka Devi, who drove the Portuguese out of Ullal in Karnataka, and Padma Bhushan awardee Rani Gaidinlu, a Naga leader who led uprisings against the British in Manipur, Nagaland, and Assam.

SENSITIVE ZONES

Arms licences for indigenous people: Himanta

PRASANTA MAZUMDAR @ Guwahati

THE Assam government on Thursday launched a special scheme for the grant of arms licences to "original inhabitants and Indian indigenous citizens" living in "sensitive" areas of the state. CM Himanta Biswa Sarma clarified that arms licences, not arms, would be given to responsible citizens so they could aid the government in maintaining peace.

Assam has many sensitive areas where indigenous people often live under insecurity. It takes a lot of time to respond to any law and order or other emergencies in such remote places. If we can use the locals as first responders, we can tackle the situations," Sarma said. Stating that using citizens as first responders is an established norm under the law, he said.

Sarma said, "We will first check why a man needs an arm – if he lives on the Bangladesh, or interstate border or in a vulnerable area where people from his community have a small population and he is not capable to defending himself without an arm before the arrival of the police in the event of a communal or ethnic violence."

Indus water row: India warns Pak of 'painful consequences'

JAYANTH JACOB @ New Delhi

INDIA on Thursday issued a stern warning to Pakistan over a series of provocative remarks by its top leadership, cautioning that any "misadventure" would be met with "painful consequences." The External Affairs Ministry condemned what it called a "continuing pattern of reckless, war-mongering and hateful comments" from Islamabad. MEA spokesperson Randhir Jaiswal said the rhetoric was part of a "well-known modus operandi" by Pakistan to stoke anti-India sentiment and distract from internal failures.

"Pakistan would be well-advised to temper its rhetoric as any misadventure will have painful consequences, as was demonstrated recently," Jaiswal said at a press briefing.

The Indian response came days after Pakistani Prime Minister Shehbaz Sharif declared that India would not be allowed to take "even one drop" of water belonging to Pakistan. His comments followed New Delhi's April 23 decision to place the 1960 Indus Waters Treaty (IWT) "in abeyance" a day after a terror attack in Pahalgam killed 26 people.

"If you threaten to hold our water, you cannot snatch even one drop of Pakistan," Sharif said at a ceremony in Islamabad, warning that India would be "taught a lesson."

Echoing his stance, former foreign minister Bilawal Bhutto-Zardari likened the suspension of the IWT to an "attack on the Indus Valley Civilisation," asserting that Pakistan would not back down if "forced into war." Meanwhile, Pakistani Army Chief Gen Asim Munir, speaking in Tampa, Florida, vowed to "destroy any dam" India might build to block water flow, declaring that "the Indus River is not the Indians' family property."

India strongly rebuked Munir's remarks, calling them "nuclear sabre-rattling" and a dangerous indication of the Pakistani military's proximity to terrorist groups. "Such threats will not deter India from safeguarding its security," the MEA stated, adding regret that the remarks were made "from the soil of a friendly third country."

New Delhi also rejected a recent Award by the Court of Arbitration on the IWT, reiterating its longstanding position.

"India has never accepted the legality, legitimacy, or competence of the so-called Court of Arbitration. Its pronouncements are therefore without jurisdiction, devoid of legal standing, and have no bearing on India's rights of utilisation of waters," the MEA said.

De-dollarisation not part of our agenda: MEA

India has ruled out any shift toward de-dollarisation, with MEA spokesperson Randhir Jaiswal saying, "De-dollarisation is not part of our financial agenda." On Brazil's proposal for a BRICS virtual summit amid global trade tensions, he said India remains in touch with the group. Jaiswal also affirmed continued defence cooperation with the US, calling it a key pillar of the bilateral relationship.

Congress hails SC order on SIR as 'massive victory' for democracy; BJP hits back

PREETHA NAIR & RAJESH KUMAR THAKUR @ New Delhi

HAILING the Supreme Court order on Special Intensive Revision of electoral rolls (SIR) in Bihar, the Congress on Thursday called it a 'massive victory' for democracy and a 'huge message' for 'vote thieves' who tried to distort the electoral process in the state. The Supreme Court on Thursday directed the Election Commission of India (ECI) to publish the details of 65 lakh names deleted from the electoral roll in Bihar including the reasons for their non-inclusion, in order to enhance transparency in the SIR process.

In a statement, Congress general secretary (Organisation), K C Venugopal said that it is an important first step in the party's fight against the draconian and disastrous SIR process. "As one of the petitioners in this case, it is heartening that in unequivocal terms, the Court has ordered that machine-readable electoral rolls be made available - in line with one of the central demands of Rahul Gandhi's press conference," he said.

"We also welcome the insistence on swift declaration of the 65 lakh deleted names by the ECI which will no doubt go a long way in bringing much needed transparency to the SIR process," he said.

"The Court rejecting the ECI's decision to not accept Aadhar is also a major boost, since in a state like Bihar, Aadhaar is the most widely held document by the poor and marginalized," he added. Congress president Mallikarjun Kharge said the campaign of millions of aware citizens, the Congress, and LoP Rahul Gandhi have achieved its first success' through the intervention of the SC.

Lashing out at the Congress, BJP National President JP Nadda said, "Congress tried every trick and deceit to stop SIR but they had to face disappointment in the SC today". Criticising the Congress for creating confusion around the SIR, Nadda said the party was clinging to non-issues. "Now, in sheer desperation, Congress is clutching at non-issues and parading them as 'moral victories'. The fact remains that all their canards are being rejected, exposed, and defeated one by one," he said.

SP expels MLA for praising Yogi action against gangster Atiq

NAMITA BAJPAI @ Lucknow

THE Samajwadi Party on Thursday expelled party MLA Puja Pal for anti-party activities, a day after she praised Chief Minister Yogi Adityanath, describing the decimation of the empire of gangster-politician Atiq Ahmed, culminating in his killing, as the delivery of justice to women.

Notably, Atiq Ahmed was an accused in the 2005 murder case of Puja Pal's husband and former BSP legislator Raju Pal. Yadav's letter stated, "The action taken by you is against the party and amounts to a serious breach of discipline. Hence, you are being expelled from the Samajwadi Party with immediate effect." A BJP spokesperson reacted sharply, saying, "After Congress sacked the ST Minister for speaking the truth in Karnataka, now the SP sacks the OBC MLA for speaking the truth. For parivarvadis, it's parivar first. OBC SC/ ST welfare last."

Puja Pal responded, saying, "I only want to say that CM Adityanath has worked to deliver justice to the families affected by Atiq Ahmad in Uttar Pradesh. When something is right, it will be called right."

With 3L stray dogs, 900 bite cases daily in Punjab

HARPREET BAJWA @ Chandigarh

IN Punjab, there are over 3,00,000 stray dogs out of a total dog population of about 650,000. On average, about 882 dog bite cases are reported each day, showing a significant increase over the past five years.

In the first seven months of this year, there have already been 188,000 dog bite cases, compared to 213,000 cases reported last year. The districts most affected by dog bites are Jalandhar, Ludhiana, and Patiala. Official data from the state health department reveals that Amritsar district reported the highest number of cases this year, with 29,504. Ludhiana follows this with 21,777 cases and Patiala with 14,120 cases. Jalandhar reported 12,349 cases, Hoshiarpur had 10,920, and SAS Nagar recorded 9,860 cases.

Dog bite cases have been rising in recent years. From 1,10,000 cases in 2020, they rose to 126,000 in 2021, 165,000 in 2022, and 202,000 in 2023. The 2024 figure was 213,000. Three people died from rabies this year, including a mother and her daughter in Pathankot, and a 32-year-old man in Patiala who died after being bitten by a stray dog.

From 2020 to 2024, Jalandhar district recorded the highest 112,000 dog bite cases, followed by Ludhiana with 99,678 cases and Patiala with 63,782 cases. Hoshiarpur had 56,113 cases, SAS Nagar reported 55,286 cases, and Amritsar had 44,249 cases.

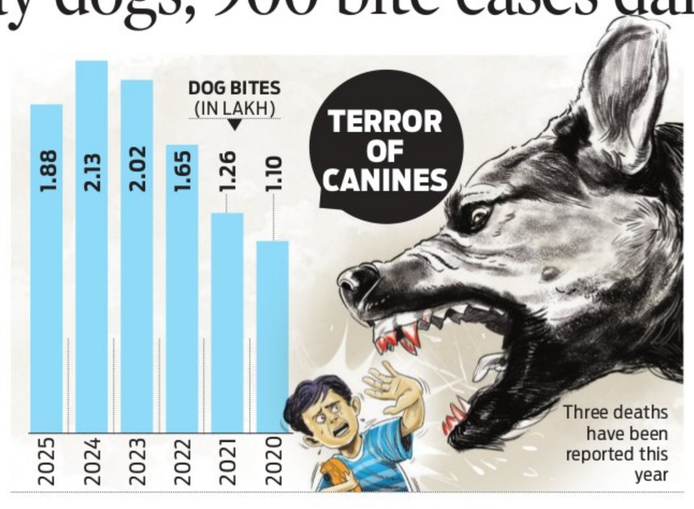
According to the 2019 animal census, Punjab had 290,000 stray dogs and 332,000 pet dogs. This year, a new animal census was conducted, but the results have not yet been released. A 5 percent increase in the dog population is claimed since the last census.

Punjab's Health Minister, Dr. Balbir Singh, stated that vaccinations for dog bites are available at all Community Health Centres and that treatment has been extended to all Aam Aadmi Clinics. He urged people to seek immediate treatment for dog bites, free of charge.

Vaccination and sterilisation programs to control the stray dog population are important. However, many of these programs have been outsourced to private agencies, which limits their effectiveness, especially in large cities.

A veterinary expert said that in 50 percent of dog bite cases, pet dogs have bitten the owner or anyone else and not stray dogs, but the general perception is that stray dogs are responsible.

The health department is yet to issue standard operating procedures (SOPs) for the government doctors on whose diagnosis the compensation for dog bite cases would be fixed.



SC raps local bodies, reserves order on strays

ENS @ New Delhi

THE Supreme Court on Thursday castigated the local authorities for doing nothing to address the stray dog problem, while reserving its order on a batch of petitions seeking stay on the directions by a two-judge bench to round up and shift all strays in Delhi-NCR to shelter homes.

A three-judge special bench of justices Vikram Nath, Sandeep Mehta and N V Anjaria said, "The whole problem is because of inaction of the local authorities. You frame rules in Parliament. The government acts, rules are framed but no implementation is carried out creating problem which is standing today... On the one hand, humans are suffering and on the other hand, the animal lovers want the animals also to be treated with dignity."

Centre issues guidelines on floodplain zones

JITENDRA CHOUBEY @ New Delhi

WITH flash floods causing destruction, the Centre has issued guidelines on floodplain zoning to encourage the states to adopt non-structural measures and reduce the impact of flood-related disasters. The Central Water Commission has created the first technical framework titled 'Technical Guidelines on Floodplain Zoning 2025', categorising floodplains into protected, regulatory, and warning zones.

Protected zones (both rural and urban areas) experience floods at least once in five years. Regulatory zones experience floods once in five years and once in 25 years. Finally, the Warning zone (only in urban areas) gets flooded once in 25 years and once in 100 years.

In the Protected zone, any permanent structural activities are not advised, except for public purposes such as civil and rail infrastructure. Construction disturbing the natural course of the river channel, except for essential services and infrastructure (ESI), is prohibited. Sustainable activities are encouraged, but not dumping any solid waste or creating landfills, storing highly volatile, inflammable materials, or establishing large-scale facilities. In the regulatory zone, the framework prohibits any residential settlement, critical defence installations, and the construction of basements. However, it allows public institutions, government offices, universities, and educational Institutions without residential facilities, public libraries, sewage treatment plants, and community halls.

In the warning zone, the guidelines prohibit hazardous waste-producing chemical industries and nuclear plants, but allow public utilities.

GOVERNMENT OF INDIA
MINISTRY OF MICRO, SMALL & MEDIUM ENTERPRISES
OFFICE OF DEVELOPMENT COMMISSIONER (MSME), NEW DELHI

Expression of Interest (EoI) for Empanelment of Implementing Agencies for FY 2025–26

The Office of the Development Commissioner (MSME) invites applications from eligible Implementing Agencies (IAs) for their empanelment to organize training programmes under the Scheme of Entrepreneurship and Skill Development Programme (ESDP) for FY 2025–26, as per the scheme guidelines **https://dcmsme.gov.in/ESDP-Guidelines-new-01-04-2022.pdf**

The Entrepreneurship and Skill Development Programme (ESDP) aims to promote self-employment and entrepreneurship by providing technical and managerial training. It focuses on entrepreneurial skill enhancement, capacity building for MSMEs, fostering innovation, and generating employment. The programme ensures inclusive growth, targeting youth, women, and disadvantaged groups to drive economic development through technical up skilling and business innovation.

Eligibility Criteria for Empanelment

- Proven experience in organizing entrepreneurship skill development programmes.
- Adequate infrastructure and resources to conduct high-quality training.
- Willingness to adopt digital platforms for monitoring and evaluation.
- Institutes/organizations already shortlisted for the ESDP Scheme in the earlier phase for the current FY 2025-26, will not be considered again.
- **Private Institutes, Private Universities, NGOs, Private Organizations, Private Bodies and Private Companies are not eligible for applying.**

Who Can Apply

Institutes: IITs, IIMs, NITs, Technology Centers (TCs), Tool Rooms, Central and State Universities, Govt Agricultural Universities, Govt. Research Centres (Scientific and Agricultural/Others) Central Autonomous Bodies under the Ministry of Education (MoE), Government of India, and institutes from Central and State Government departments.

How to Apply

Interested organizations can submit their application in the prescribed format can be downloaded from the official website at **www.dcmsme.gov.in** (Scroll Down -> Notice Board) along with supporting documents through email to **esdp.div@dcmsme.gov.in** within **21 days** from the date of publication of this notice.

● Expects strong economic fundamentals to drive growth over next two-three years ● Last time, S&P upgraded the country's ratings in January 2007 to 'BBB'

S&P upgrades India's sovereign rating to BBB

DIPAK MONDAL @ New Delhi

IN a shot in the arm for the Indian government, S&P Global Ratings has upgraded the country's long-term sovereign credit rating to 'BBB' from 'BBB-', with a stable outlook, citing robust economic growth, effective monetary policy, and the government's sustained focus on fiscal consolidation. The last time, S&P upgraded India to BBB was in January 2007. The rating upgrade comes days after Donald Trump had taken a jibe at India calling it a dead economy.

The agency said India's prioritisation of fiscal consolidation, along with strong infrastructure investment push, reflects a clear political commitment to sustainable public finances. It expects strong economic fundamentals to continue driving growth over the next two-three years, supported by effective monetary policy in anchoring inflation expectations. Stable outlook assumes policy stability and high infrastructure investment, coupled with cautious fiscal and monetary measures aimed at easing India's elevated debt and interest burden. Reacting to the rating upgrade, finance ministry said: "India has prioritised fiscal consolidation, maintaining strong infrastructure creation drive and inclusive growth approach that has led to the upgrade. India will continue its growth momentum and undertake steps for reforms to attain the goal of Viksit Bharat by 2047."

S&P's is the second sovereign rating revision this year. Morningstar DBRS had recently upgraded India to BBB status.

S&P noted that India's buoyant growth and improved monetary policy framework have strengthened its credit metrics. Real GDP growth averaged 8.8% between FY22 and FY24 — fastest in Asia-Pacific — and is projected to average 6.8% annually over next three years. This, the agency said, should help moderate debt-to-GDP ratio despite continued fiscal deficits. "We anticipate solid consumer and public investment dynamics to propel real GDP growth to 6.5% in fiscal 2026 and to average 6.8% over next three years," it said.

On external risks, S&P expects the impact of US tariffs on India to be manageable, given 60% of growth comes from domestic consumption.

"Though the US is India's largest trading partner, we do not expect 50% tariffs (if imposed) to pose a material drag on growth. India's exports to the US constitute 2% of GDP. Factoring in sectoral exemptions on pharma and consumer electronics, the exposure of Indian exports subjected to tariffs is lower at 1.2% of GDP. Though this may result in a one-off hit to growth, we envisage overall impact to be marginal and will not derail India's long-term growth prospects," the rating agency said. It sees limited fiscal cost from any shift away from Russian crude, given narrow price gap with other international benchmarks. "We expect in the event India has to switch from importing Russian crude oil, the fiscal cost, if fully borne by the government, will be modest given narrow price differential between Russian crude and current international benchmarks," it said.

While fiscal settings remain most vulnerable aspect of India's sovereign rating, S&P noted the government is pursuing a concrete — though gradual — path to consolidation. It projects the general government deficit to narrow from 7.3% of GDP in FY26 to 6.6% by FY29. Analysts say a rating upgrade into a higher investment-grade category of BBB can open door for new pools of global funds' capital. All of this will lower India's risk premia and consequently, lower cost of funding across macro agents' curves, including corporates — especially those borrowing abroad.

Agency said India's prioritisation of fiscal consolidation, along with its strong infra investment push, reflects a clear political commitment to sustainable public finances

Strong economic fundamentals is supported by effective monetary policy in anchoring inflation expectations: S&P

Upgrade to bring down credit costs for govt, cos

BENN KOCHUVEEDAN @ Mumbai

"Positive impetus on the back of upgrade will help lower credit premium on sovereign debt, as well as ease corporates' offshore borrowing costs"

Radhika Rao, economist, DBS Bank

Rating upgrade no surprise

As per Soumyakanti Ghosh, chief economic advisor at SBI, current rating action by S&P reaffirms the position that Indian rating ought to have been on the higher side is no surprise

INDIA'S sovereign rating upgrade to BBB from BBB- with stable outlook, which comes after 18 years gap, will make the country an attractive investment destination, apart from bringing cost of borrowings for both the government and corporates, according to analysts.

As expected, the bond yields eased following the news. However, stock market didn't react to the development. The 10-year benchmark bond yield eased to 6.4052% at close from 6.4742% at open. As per Soumyakanti Ghosh, chief economic advisor at SBI, rating agencies didn't capture the country's fundamentals for almost a decade. The current rating action by S&P reaffirms the position that Indian rating ought to have been on the higher side is no surprise.

As per him, current rating upgrade "hinges on three fundamental observations — credible fiscal consolidation, strong external position and well-anchored inflationary expectations also an acknowledgement that quality of government spending has improved in the past five to six years. Radhika Rao, senior economist at Singaporean lender DBS Bank, said S&P upgrade brings India on par with Indonesia, and Mexico. "The positive impetus on the back of this upgrade will help lower credit premium on the sovereign's debt, as well as further ease corporates' offshore borrowing costs," Rao said. The upgrade is driven by improvement in the economy's macro backdrop, including material progress towards fiscal consolidation goals.

Cognizant announces salary increase for 80% of eligible employees

DIPAK MONDAL @ New Delhi

IT services major Cognizant will roll out salary hikes for about 80% of its eligible employees effective 1 November 2025, the company said on Thursday.

The move aligns with its second-quarter guidance to award merit-based increases to the vast majority of staff in the second half of the year.

The hikes will apply to employees up to the senior associate level, with the amount varying by country and individual performance. In India, consistent top performers will receive increases in the "high single digits."

"Top performers will receive the highest increases. Earlier this year, Cognizant paid most of its associates their highest bonuses in three years," a company spokesperson said.

Nasdaq-listed Cognizant posted a 14% year-on-year rise in net income to $645 million for the quarter ended June 30, 2025, compared with $566 million a year ago.

Revenue for the quarter grew 8.1% to $5.25 billion. The company maintained its 2025 adjusted operating margin guidance at 15.5-15.7%, an expansion of 20-40 basis points, and narrowed constant currency revenue growth guidance to 4-6%. Operating margin for the quarter stood at 15.6%.

CFO Jatin Dalal during the earnings call had said that the decision on salary increases had not been finalised earlier in the year, but the aim was "to cover a vast majority of our employees during the second half."

The management had informed after the June quarter results that voluntary attrition in the company fell to 15.2% in Q2 2025, from 15.8% in Q1 and 13.6% a year earlier. Headcount stood at 343,800 at the end of June, up 7,500 from both Q1 2025 and Q2 2024. The company plans to hire 15,000–20,000 freshers in 2025.

The announcement by Cognizant comes days after Tata Consultancy Services (TCS) said it would raise salaries for about 80% of its workforce from September 1, 2025, covering junior and mid-level staff. Reports suggest increments of 6–8% for offshore employees and 2–4% for onshore employees.

TCS' pay hike followed its disclosure of plans to cut more than 12,000 jobs in FY26, primarily targeting middle and senior management — a first for an Indian IT major in recent years. The company cited structural changes, automation, and global macroeconomic pressures.

US tariff: Govt unveils plans to shield exporters

PUSHPITA DEY @ New Delhi

THE Ministry of Commerce has designed a four-pillar strategy to help exporters withstand impact of US President Donald Trump's new tariffs on Indian goods and broader geopolitical disruptions, according to senior government officials. The plan aims to enhance exports to 50 countries that together account for over 90% of India's export basket, with the aim of sustaining growth even if global trade turbulence persists.

The four-pillars strategy focuses on improving export competitiveness, bolstering promotion, and diversifying both export and import markets. Between April-July FY25 and FY26, India logged export growth in 26 destinations, including Canada, Spain, China, Hong Kong and South Korea, while shipments to 14 markets like Turkey, Indonesia, Malaysia, and the Netherlands fell.

Of the 50 countries under review, 20 have been deemed of particular significance, with 30 more under consideration — with a special focus in Asian economies, as the World Trade Organization (WTO) projects stronger trade expansion in Asia. "We are looking at these 50 countries which constitute more than 90% of our export basket. So, out of more than 193 countries, we are focusing now on these 50 select countries where export potential is very high, where they import a lot from the rest of the world but not from India and how we can diversify our exports in these countries," said an official from the ministry.

We are looking at 50 countries which constitute over 90% of our export basket. Out of over 193 countries, we are focusing on 50 select countries where export potential is very high

Commerce ministry official

The Agricultural and Processed Food Products Export Development Authority (APEDA) has already dispatched 15 new products to 28 new markets. The government is also upgrading testing and certification systems to meet destination-market standards.

The official said fast-tracking free trade agreement (FTA) negotiations have become a key element of the four-pillar strategy. The India-EFTA pact will come into force on 1 October, and a deal with Oman is ready for signature.

Talks are being expedited with ASEAN economies, Peru, Chile and New Zealand, while India has urged the EU to fast-track the ongoing negotiations. The UK agreement will phase out tariffs on labour-intensive sectors to zero within six months, partially offsetting potential US losses, said the official. "After six months, as the UK market opens up, the tariffs will be coming down to zero. The focus of the UK FTA has particularly been labour-intensive sectors. So, that tariff differential, which these sectors might have lost here in the US, would gain in the UK," assured the government official. The government is also preparing direct support for sectors most exposed to the US market.

Efforts on to restore rare earth imports, says govt

PUSHPITA DEY @ New Delhi

THE country's trade relations with China are gradually showing renewed momentum, as negotiations are underway to commence imports of rare earth magnets, according to a senior government official. The move comes amid Beijing's recent tightening of export controls on critical minerals that are essential for electric vehicles, renewable energy systems and defence applications.

China has issued visas to several Indian companies and both the countries are trying to figure out ways to ensure there is no disruption in the supply of rare earth magnet. "Efforts are on (to restore rare earth magnet imports). In fact, the Embassy of China has issued visas to our companies. These companies are in touch with the Chinese authorities. They are trying to find ways and means by which supply chain doesn't get impacted," said the official.

While China has resumed shipments of rare earth magnets to companies in the US, Europe and Southeast Asia, Indian firms are yet to secure export licences. Beijing's restrictions — aimed partly at countering US tariffs — have heightened concerns over supply security in strategic industries worldwide.

Following External Affairs Minister S Jaishankar's recent meeting with Chinese Foreign Minister Wang Yi in Beijing, there has been some progress in bilateral trade and broader geopolitical ties. Trade flows have been buoyant. Exports to China rose 20% to $5.76 billion in April-July 2025, up from $4.80 billion a year earlier, while imports climbed 13% over the same period from $35.96 billion to $40.66 billion, commerce ministry data show. "Trade is moving positively with China -- both exports as well as imports," the official added. The rare earth supply chain has become a focal point of India's strategic trade planning.

JULY GOODS TRADE DEFICIT HITS 8-MONTH HIGH OF $27.35 BILLION

ENS ECONOMIC BUREAU @ New Delhi

THE country's merchandise trade deficit touched an eight-month high of $27.35 billion in July, as a sharp rise in imports outpaced a moderate gain in exports, ahead of the looming US tariffs. India's overall trade deficit (merchandise and services) touched $11.72 billion in July.

As per the Ministry of Trade and Commerce data released on Thursday, goods exports grew 7.3% to $37.24 billion in July, while merchandise imports grew by 8.6% to $64.59 billion. Overall exports (goods and services) stood at $68.27 billion, up from $65.31 billion in July 2024 while imports rose by 6% to $79.99 billion.

"Despite uncertain global policy environment, India's exports, goods and service, in July and in FY2025-26 (during April- July period), have grown substantially and much higher than the global export growth. Major drivers of merchandise exports include engineering, electronics goods, drugs and pharmaceuticals and organic and inorganic chemicals," said Sunil Barthwal, secretary, Department of Commerce.

Among major goods exports, petroleum products, and gems & jewelleries saw a fall during April-July period. Export of petroleum products has come down by over 17% from $26.43 billion in the corresponding period of the previous year to $21.75 billion. In July, exports of petroleum products fell by 25%.

Gold imports during the April-July period fell by 3% to $11.5 billion. US continues to be top destination, with Indian exports to the country touching $33.53 billion during April-July, a rise of 21% as against the corresponding period of the previous year. Imports from the US rose to $17.41 billion as against $15.50 billion a year ago, the government data showed. With an additional tariff of 25% announced by Trump on August 6, there are concerns if India will be able to sustain export growth trajectory in coming months.

Noel Tata appointed to the Tata Sons board as director

ENS ECONOMIC BUREAU @ Mumbai

THE shareholders of Tata Sons have cleared appointment of Noel Tata as non-executive director on the board. Tata Sons controls $165 billion group companies.

The 107th annual general meeting held here on Thursday has approved other board changes and sought higher dividend from group companies as Tata Son's FY25 profit has gone down on lower investment gains. Within days, Noel Tata, Ratan Tata's step brother, was elected chairman of Tata Trusts, which own 66.4% of Tata Sons. Soon after he was nominated to the Tata Sons board by the trusts and was appointed as an additional director. As per sources, AGM cleared appointment of three other directors. The new appointments are Venu Srinivasan and Saurabh Agrawal (reappointments as directors) and Anita Marangoly George, co-founder and CEO of emerging markets growth fund Prosperete, as an independent director.

Vi loss rises to ₹6,608 cr; ARPU up by 15% to ₹177

RAKESH KUMAR @ New Delhi

VODAFONE IDEA (Vi) on Thursday reported a consolidated net loss of ₹6,608 crore for the quarter ended June 30, 2025 (Q1FY26), compared to ₹6,426.7 crore in the same quarter last year, mainly on account of an increase in finance cost.

Despite the loss, the company posted a 4.9% year-on-year (YoY) growth in revenue, which rose to ₹11,020 crore. EBITDA stood at ₹4,610 crore, while cash EBITDA (excluding the impact of Ind AS 116) rose 3.7% YoY to ₹2,180 crore. Capex stood at ₹2,440 crore as the telco continued investing in network expansion and 5G rollout.

As of June 30, 2025, Vi's debt from banks stood at ₹1,930 crore, while its cash and bank balance was ₹6,830 crore. It recorded a 15% YoY rise in average revenue per user (ARPU) to ₹177, supported by improved subscriber mix and data usage. Its 4G/5G subscriber base reached 127.4 million, up from 126.7 million in the same period last year, while total user base stood at 197.7 million. Vi was able to restrict subscriber loss to 0.5 million, a n improvement from 5 million fall seen in both Q2 and Q3 of the previous fiscal year.

"This has been a decisive turnaround quarter. The investments made over past three quarters to expand 4G coverage have started yielding results as reflected in 90% lower subscriber loss as against Q2 and Q3 of last financial year, being the lowest subscriber decline since merger. Our 5G services are operational in 22 cities across 13 circles, and we are committed to expanding our 5G footprint, in line with growing 5G handset adoption," said Akshaya Moondra, CEO, Vodafone Idea.

Abhijit Kishore appointed CEO as Moondra's term ends

NEW DELHI: Vodafone Idea (V) has announced appointment of Abhijit Kishore as new CEO and key managerial personnel, effective August 19, 2025, for a term of three years. His appointment comes following the completion of current CEO Akshaya Moondra's three-year term.

AFI introduces mandatory SRY gene test for female athletes

Women athletes qualifying for the Tokyo World Championships will have to undergo SRY gene test as per the latest directive of the Athletics Federation India (AFI). The SRY (Sex-determining Region Y) gene test is mainly used to identify the presence or absence of the SRY gene, which plays a crucial role in male sex determination during fetal development.

Really wish I could have helped Vece get replica of his lost Oly bronze

ASHOK KUMAR DHYANCHAND

DR VECE PAES, a member of the 1972 Munich Olympic Games bronze-winning India's men's hockey team and father of legendary tennis player Leander Paes, passed away at the age of 80 on Thursday morning. I still cannot believe that he is no longer with us. It was him who supported me morally and helped me grow as a hockey player when I joined Kolkata's Mohun Bagan in 1969. He was senior to me but made every effort to make sure I gained confidence and polished my skills as well.

More than a couple of years ago I met him when Mohun Bagan organised a function in Kolkata to felicitate him, Gurbux Singh and me. I received a call from Paes a few days before the function. He asked me to bring the Olympic bronze medal when I visit Kolkata and I was more than happy to do it. Paes had lost his medal and wanted to get a replica prepared, that's why he wanted that medal. My medal was with him for around four-five months but he could not find someone who could prepare the replica. He told me that he tried finding some good replica artists in Mumbai and Kolkata but failed. He passed away today and it's unfortunate that he did not have that bronze medal, his biggest sporting success, with him in his last moments.

His son Leander also won an Olympic bronze in 1996 Atlanta Games and he was a proud father. I really hoped I could have helped him get a replica prepared. I still remember Leander accompanying him to Mohun Bagan ground during matches and practice sessions. At that time, he was not sure which sport he would choose. Sometimes he will play hockey with us and on some days he will bring bow and arrows. These days parents go to any length to make sure their children succeed as athletes but it was Paes and his wife Jennifer, also a former India basketball captain, who probably started that trend. They left no stone unturned to make Leander a successful tennis player.

It was his brilliant passes at wrong foot to right-in that helped me score numerous goals. He was a brilliant centre-half who used to feed me balls which I then converted into goals. Playing alongside him, I featured in prestigious tournaments like Calcutta League, Beighton Cup and Bombay Gold Cup and also won them lifting the trophies. He was a very good orator as well. The time used to fly whenever I used to have a conversation with him. Not only hockey, he was very good at football, rugby and cricket as well. He served sports even after retiring from hockey and held notable positions with several sports bodies including the Asian Cricket Council, the Board of Control for Cricket in India and the Indian Davis Cup team.

He was good at academics and became a sports medicine doctor after his playing days. I last met him more than two years ago but was in regular touch with him. As he was suffering from Parkinson's disease, I could not talk to him directly of late as he was not in a condition to speak. A few months ago I got the inkling that his condition was deteriorating as whenever I called him, he was not in a position to take my calls. Instead, it was his caretaker who used to talk to me and tell me about his condition.

The news of his passing away jolted me today as I am still in disbelief. I have lost a big brother and a mentor without whom I could not have succeeded in the sport. I only hope he keeps enriching people with his presence wherever he is as he did to me.

(As told to Firoz Mirza)

Ashok Kumar played alongside Dr Paes in India hockey team

Ashok Kumar Dhyanchand (L) with Dr Vece Paes

We both played as centre-half in the 1972 Olympics team and he was terrific. I was one-and-and-half years younger to him and he used to guide me.

— Ajit Pal Singh

Having been a world-class hockey player, himself, he understood the psyche of a professional athlete and that helped him in diagnosing and treating his sporting patients. A thorough gentleman and a proud Indian, Uncle Vece will be sorely missed not only by the tennis players but by the entire sporting fraternity of our country. May God give Leander and his family the strength to bear the irrepairable loss.

— Sania Mirza

GAME ON: La Liga & EPL returns

The spotlight will be among some of the world's elite footballers as the Premier League and the La Liga season kick off this weekend. A look...

PREMIER LEAGUE | BIG SIGNINGS, BIG EXPECTATIONS

- It's just Matchday 1 but there are some intriguing battles lined up already. For instance, Man United, who finished a lowly 14th last season, will be up against Arsenal. After finishing as runners-up for the last three seasons, Arsenal believe they are ready to end their long wait to win the Premier League. With both the clubs roping in some exciting talents, the contest promises to be a lively one.
- Reigning champions Liverpool, meanwhile, have been one of the busiest teams on the transfer market with a £256 million ($343 million) summer spree. When Arne Slot's men lock horns with Bouremouth on Friday, it will be interesting to see what the likes of Florian Wirtz (record signing), **Hugo Ekitike, Jeremie Frimpong** and Milos Kerkez will bring on the pitch.
- Man City, who had a trophyless season last term, have also brought in some talented stars and Pep Guardiola's men will be hopeful of reclaiming their best form and challenge for the title. Chelsea, the Club World Cup winners, have also shown plenty of promise and they'll also be one of the sides to keep a close eye on.

OPENING FIXTURES (SELECT) **Saturday's matches:** Liverpool vs Bournemouth (12:30 am); Aston Villa vs Newcastle (5 pm); Tottenham vs Burnley (7:30 am); Wolves vs Man City (10 pm). Sunday: Chelsea vs Crystal Palace (6:30 pm); Man United vs Arsenal (9 pm).

Live on Star Sports Network

LA LIGA | FOCUS ON GIANTS

- Carlo Ancelotti's Real Madrid were dismantled on a regular basis by rivals Barcelona last season, who triumphed in all four meetings between the sides as well as winning La Liga, the Copa del Rey and the Spanish Super Cup. The Italian departed, to be replaced by Xabi Alonso, who has work on his hands to help revive them despite a squad boasting numerous star names including **Kylian Mbappe** and Vinicius Junior. Defenders Trent Alexander-Arnold and Dean Huijsen give Alonso more options than Ancelotti had last season, along with Dani Carvajal's return from a long-term knee injury.
- Barcelona, meanwhile, excelled in attack last season and much of that was down to teenage star **Lamine Yamal.** If Hansi Flick's side are to defend their title and push on for more in the Champions League, as they prepare to return to their rebuilt Camp Nou stadium, the winger maintaining his world-class level is essential. If new arrival Marcus Rashford hits the ground running, Flick may be able to give Yamal the occasional rest, moving Raphinha over to the right.
- After a poor end to the previous campaign and a surprise group stage Club World Cup elimination, Diego Simeone's Atletico took action this summer. They brought in playmaker Alex Baena from Villarreal and Real Betis' Johnny Cardoso to provide new midfield impetus, as well as several other new recruits.

OPENING FIXTURES (SELECT)

Friday: Girona vs Rayo Vallecano (10:30 pm), Villarreal vs Oviedo (IST Saturday | 1 am). Saturday's matches: Mallorca vs Barcelona (11 pm); Alaves vs Levante (IST Sunday | 1 am). Sunday: Espanyol vs Atletico (IST Monday | 1 AM); Wednesday: Real Madrid vs Osasuna (12:30 AM)

Vincent makes winning move

After being Gukesh's 2nd for World Championship tie, Keymar is now gunning for his crown

SWAROOP SWAMINATHAN
@ Chennai

Vincent Keymer (L) drew with Jorden van Foreest on Thursday to secure the Chennai Grand Masters 2025 title | MARTIN LOUIS

IN 2024, Vincent Keymer travelled to Chennai with one short-term vision. Help D Gukesh win the World Championship. When he boarded the flight to Chennai less than two weeks ago, his vision had changed. Face Gukesh in the World Championship.

Winning the Chennai Grand Masters wouldn't guarantee a spot in the Candidates but it would set him on the right path towards qualifying for it. Firstly, it would put him on the right road ahead of two massive competitions — Grand Swiss and World Cup. Finish in the top two there and that's a spot in the Candidates locked up (the World Cup also offers one for finishing third). A title in Chennai would also give him invaluable circuit points.

He ticked a big box on Thursday when he took an unassailable lead with one round to go. He needed a win to assure top spot but considering he had a 1.5 points advantage he knew a draw would be good enough. But the 21-year-old, a newly minted top-10 player in the Classical format, focused on concentrating on his own game. Up against Jorden van Foreest, a one-time second of Magnus Carlsen, both players produced elite chess before shaking their hands after 60 moves.

But make no mistake, this was a draw the German earned after a gruelling endgame filled with obstacles to tackle and hurdles to jump. In fact, at one point (before 44. g6), he thought he was completely lost. Usually, most super GMs are capable of landing on engine-recommended moves by process of elimination but Keymer was low on time. Keymer's cheeks had turned red, he was visibly shaking and he resorted to burying his face in his hands. His opponent added to the tension as he preferred to go on a short walk. He had played over 300 largely perfect moves in over 20 hours across seven-and-a-half games to grab the lead by 1.5 points but it seemed like his whole tournament was suddenly on shaky ground. The irony was he had forced this 'danger upon myself', as he would say after winning the tournament, because 'I had missed the Bd1 idea'. That trick, set by Van Foreest on the 43rd move with Black, meant Keymer now had to play precise chess till the endgame to lock the draw.

And g6 was the first part of the jigsaw. Per the engine, the second best move would have seen him lose on the spot. "No, it's just that I missed this Bishop d1 idea, which is really something you shouldn't miss," he said after the match. "Out of the opening, I was better but then it was a clear draw, and I had many ways to kind of force a draw, and I opted exactly for this way, which is, it's a miracle it even survives. Just missing this Bishop d1 idea, it's crazy, especially in such a moment, but yeah, I'm glad I at least managed to focus myself back onto the game and find the only drawing way."

After he found g6, he found a series of only moves to maintain parity. Van Foreest, who had won two of his last three games here, kept setting more landmines in the hope of winning but the German was upto it. "All the trouble that was caused were purely caused by myself, but yeah, it was certainly the most dangerous moment," he added.

But those few minutes — he had to make five only moves in seven in the endgame to keep the game level — was, in a microcosm, his tournament. Outside of the first game against Nihal Sarin where he had an accuracy of 84.8% (Sarin's was below 82%), his accuracy has been hovering 94% or over. At a super tournament where there's no second time control, that's very impressive. "I felt good here," he said. "I managed to get good sleep. The preparation was nice, and also worked out nicely. And of course, it's important to have a good start, because once you have a good start, you get a good feeling. Things are just happening more naturally, which is especially important in a shorter time control, because then you can rely more on intuition and save some time there, which usually matters in the end."

What kind of player is he? He relies more on intuition — from that standpoint, more Magnus Carlsen than Gukesh — a point Anish Giri made. It's something Keymer himself had said before the tournament began. "I think we are quite different chess players," the 20-year-old had said. "So, what works for him doesn't necessarily work for me. But, of course, it's interesting to see a different perspective on chess and I do believe that I saw some things which I could use for my own purposes as well, yeah."

Over the next few months, the German, who called this win as the most important Classical title of his fledgling career, can rubber-stamp his entry to the Candidates. If and when he gets there, he will be gunning for the crown he helped place on Gukesh's head.

PSG win Super Cup on penalties

AGENCIES @ Udine

PSG players celebrate after winning the UEFA Super Cup on Wednesday | AFP

EUROPEAN champions Paris Saint-Germain began the new season by lifting more silverware on Wednesday as they beat Tottenham Hotspur 4-3 on penalties in the UEFA Super Cup after producing a late comeback to draw the match 2-2.

Micky van de Ven gave last season's Europa League winners the lead on 39 minutes and Cristian Romero got their second goal three minutes into the second half. However, PSG were rescued by two substitutes as Lee Kang-in pulled a goal back in the 85th minute and Goncalo Ramos headed in the equaliser four minutes into injury time.That meant a penalty shoot-out, which PSG finished on a high.

RO rejects Bhandari's nomination for top post

EXPRESS NEWS SERVICE
@ Chennai

THINGS are heating up ahead of the all-important Boxing Federation of India (BFI) elections which is scheduled to be held soon.

Just days before the upcoming elections, Rajesh Bhandari, one of the officials aspiring to contest for the president's post, is facing a roadblock for violation of Sports Code. Justice (Retd) Rajesh Tandon, the Returning Officer of the election, in a letter on Thursday, has stated that Bhandari, who filed his nomination just a few days ago, is not valid to contest for the president's post. The objection to the candidature of Bhandari was raised by Narendra Kumar Nirwan, who's running for the post of the vice president, according to the RO. "He (Nirwan) has objected that Mr. Bhandari has filed three nomination papers while the Model Election Guidelines of the Sports Code clearly stipulates that each candidate shall be entitled to be nominated by not more than 2 (two) nomination papers," the letter, in possession with this newspaper, stated.

Bhandari had 'contended that it was not notified that the elections shall be in terms of the Sports Code and therefore, the provisions of the Model Election Guidelines are not applicable and thus, the nomination papers of Mr. Bhandari are valid'. According to the letter, Bhandari had submitted three nomination papers — for the post of secretary general, vice president and president. "Upon scrutiny, it is found that the submission of the third nomination paper exceeds the limit prescribed under Article 6 (3) of the aforesaid Guidelines," the letter stated. It also stated that Bhandari is eligible to contest for the post of secretary general and the vice president's post.

CRICKET ROUND-UP

India women finish camp for WC

BENGALURU: The Indian women's team completed a 10-day preparatory camp at the BCCI Centre of Excellence here ahead of the ODI World Cup at home with focus on strength and conditioning besides match simulations. India, who have never won a world title, will be expected to end their ICC trophy drought in the 50-over showpiece beginning Sept 30. "The camp aimed to enhance fitness levels, fine-tune skills and prepare the squad for the challenges ahead," said the BCCI in a post.

Yuvraj impressed with Gill captaincy

NEW DELHI: Former India batter Yuvraj Singh feels Shubman Gill's performance on the recent England tour was nothing short of unbelievable, especially considering the question marks over his batting in overseas conditions. Gill scored four centuries and finished as the leading run-scorer with 754 runs. "There were a lot of question marks. The guy (Gill) became the captain and scored four Test hundreds. It's just unbelievable that when you're given responsibility, how you take it," Yuvraj told ICC Digital.

Ruturaj to play in Buchi Babu

PUNE: India batters Ruturaj Gaikwad and Prithvi Shaw were on Thursday named in Maharashtra's 17-member squad for the All India Buchi Babu Invitational Tournament to be played in Chennai from August 18 to September 9. Ankit Bawane has been named captain of Maharashtra. It will be the first assignment for Shaw who had joined Maharashtra. Squad: Bawane (c), Gaikwad, Shaw, Veer, Dhas, Kulkarni, Kate, Mhatre, Nawale (wk), Bhandari (wk), Ghosh, Choudhary, Dadhe, Ostwal, Walunj, Solanki, Hangargekar.

No common ground as clock ticks on global plastic pollution treaty

GENEVA

NEGOTIATORS trying to secure a global agreement on tackling the scourge of plastic pollution were frantically trying to find common ground with just hours left on Thursday.

Countries wanting bold action to turn the tide on plastic garbage were trying to build last-minute bridges with a group of oil-producing nations -- after three years of talks.

"We need to have a coherent global treaty. We can't do it on our own," Kenya's Environment Minister Deborah Barasa told AFP. Kenya is in the High Ambition Coalition group of countries.

Barasa suggested nations could strike a treaty now, then work in some of the finer details further down the line.

"We need to come to a middle ground. There's some compromise that may need to be done, and then we can have a stepwise approach in terms of building up this treaty... and end plastic pollution.

"We need to leave with the treaty."

With 15 million tonnes of plastic dumped in the ocean every minute, French President Emmanuel Macron asked: "What are we waiting for to act?""I urge all states gathered in Geneva to adopt an agreement that truly meets the scale of this environmental and public health emergency," he said on X.

All eyes were on whether the chair of the talks, Luis Vayas Valdivieso, would come up with a radically improved draft text.

The Ecuadoran diplomat's previous attempt was shredded on impact Wednesday as one country after another branded it unacceptable.

The High Ambition group dismissed it as an empty document, shorn of bold action such as curbing production and phasing out toxic ingredients. They argued it had been reduced to a waste management accord.

For the so-called Like-Minded Group, led by Gulf states it

Chair of the International Negotiating Committee Luis Vayas Valdivieso with other top officials at European headquarters of the UN in Geneva, Switzerland | AP

crossed too many of their red lines. They said it had not done enough to narrow the scope of what they might be signing up for. The group is a cluster of mostly oil-producing states that includes Saudi Arabia, Kuwait, Russia and Iran.

They want the treaty to focus primarily on waste management.

Multiple regional groups huddled in meetings early Thursday.

"It is very tense," Greenpeace delegation chief Graham Forbes told AFP.

"These final hours are critically important. We need to see meaningful obligations in this text -- and now is the moment to do it."

The two key cross-regional blocs -- the High Ambition Coalition and the Like-Minded Group -- were to have their own meetings before marching back into the plenary session, which brings all the negotiating countries together in the UN Palais des Nations' main assembly hall.

The plenary was pushed back by four hours to 1700 GMT as talks went on in the meeting rooms.

One senior Western negotiator, who was among those who had skewered the previous draft, told AFP: "It's all up in the air."

"It's very simple: there are only two scenarios: there's bad and very bad -- and a lot of ugliness in between," Aleksandar Rankovic from The Common Initiative think-tank, he told AFP.

"The bad scenario is that countries adopt a very bad treaty. "The very bad is that they don't agree on anything, and they either try to reconvene," or the treaty is "kept in limbo for a long time -- so practically abandoned". *AFP*

Ukraine deal only in next summit, not this: Trump

Putin, Trump to hold 'one-on-one' talks in Alaska; war in Ukraine tops agenda

WASHINGTON/MOSCOW

US President Donald Trump said Thursday any deal on ending Russia's invasion of Ukraine would come only at a second, three-way meeting involving Ukrainian leader Volodymyr Zelenskyy, rather than at Friday's Alaska summit with Russia's President Vladimir Putin.

"The second meeting is going to be very, very important, because that's going to be a meeting where they make a deal. And I don't want to use the word 'divvy' things up. But you know, to a certain extent, it's not a bad term, okay?" Trump told Fox News Radio. Trump estimated that there was a one in four chance of his summit with Russian leader Vladimir Putin in Alaska on Friday ending in a failure.

"This meeting sets up the second meeting, but there is a 25 percent chance that this meeting will not be a successful meeting," he said.

Putin and Trump will hold "one-on-one" talks aimed at settling the Ukraine conflict when they meet for their landmark summit in Alaska on Friday, the Kremlin said.

The meeting, set to take place at a US air base outside of Anchorage, marks Putin's first trip to a Western country since his February 2022 assault on Ukraine.

Ukrainian President Volodymyr Zelensky, who met UK Prime Minister Keir Starmer in London on Thursday, is not scheduled to take part.

After nearly three-and-a-half years of fighting, which has resulted in tens of thousands of deaths, Trump on Wednesday urged Putin to accept a peace deal or face "very severe consequences".

The Kremlin said the talks were due to start at 11:30 am (1930 GMT) Friday. "This conversation will take place in a one-on-one format, naturally with the participation of interpreters," Kremlin aide Yuri Ushakov told reporters.

Putin and Trump will give a joint press conference following their meeting, during which they will "summarise the results," Ushakov said. *AP/AFP*

Russia, Ukraine exchange 84 prisoners each

Moscow: Russia and Ukraine exchanged 84 prisoners each on Thursday, both sides said, the latest in a series of swaps that has seen hundreds of POWs released so far this year. Russian defence ministry said the United Arab Emirates had mediated the exchange and that the released personnel were receiving aid.

Zelenskyy meets UK's Keir Starmer

LONDON

BRITISH Prime Minister Keir Starmer welcomed Ukrainian President Volodymyr Zelenskyy to London on Thursday, a day before a critical US-Russia summit in Alaska.

The two embraced warmly outside Starmer's offices at 10 Downing Street, without making any comments. Zelenskyy's trip to London comes a day after he took part in virtual meetings from Berlin with US President Donald Trump and the leaders of several European countries.

Those leaders said Trump had assured them he would make a priority of trying to achieve a ceasefire in Ukraine when he meets with Russian President Vladimir Putin on Friday in Anchorage. Ahead of Thursday's meeting, Starmer said further sanctions could be imposed on Russia should Putin fail to engage. "We stand ready also to increase pressure on Russia, particularly the economy, with sanctions and wider measures as may be necessary,' Starmer said.

Both Both Zelenskyy and the Europeans have worried the bilateral US-Russia summit would leave them and their interests sidelined, and that any conclusions reached could favour Moscow and leave Ukraine and Europe's future security in jeopardy with Russia's full-scale invasion of Ukraine now in its fourth year. *AP*

Humanitarian support groups call upon Israel to end 'weaponisation' of aid in Gaza

JERUSALEM

MORE than 100 nonprofit groups warned Thursday that Israel's rules for aid groups working in the Gaza Strip and occupied West Bank will block much-needed relief and replace independent organisations with those that serve Israel's political and military agenda ' charges that Israel denied.

A letter signed by organisations including Oxfam, Doctors Without Borders and CARE accused Israel of 'weaponising aid' as people starve in wartorn Gaza and using it as a tool to entrench control. The groups were responding to registration rules announced by Israel in March that require organisations to hand over full lists of their donors and Palestinian staff for vetting.

The groups contend that doing so could endanger their staff and give Israel broad grounds to block aid if groups are deemed to be 'delegitimising' the country or supporting boycotts or divestment.

The registration measures were 'designed to control independent organisations, silence advocacy, and censor humanitarian reporting,' they said.

Palestinian children sell bags of drinking water during a hot summer day in Deir al-Balah, central Gaza Strip on Thursday | AP

The letter added that the rules violate European data privacy regulations, noting that in some cases aid groups have been given only seven days to comply.

COGAT, the Israeli military body in charge of humanitarian aid to Gaza, denied the letter's claims. It alleged the groups were being used as cover by Hamas to 'exploit the aid to strengthen its military capabilities and consolidate its control' in Gaza. 'The refusal of some international organisations to provide the information and cooperate with the registration process raises serious concerns about their true intention,' it said in a statement on Thursday.

The aid groups stressed on Thursday that most of them haven't been able to deliver 'a single truck' of life-saving assistance since Israeli blockade in March. *AP*

Israel announces West Bank settlement

West Bank: The Israel's far-right finance minister announced approval of a contentious new settlement in West Bank on Thursday, which Palestinians and rights groups worry will scuttle plans for a future Palestinian state by effectively cutting the West Bank into two separate parts. "This buries the idea of a Palestinian state, because there is nothing to recognise and no one to recognise,"said finance minister Bezalel Smotrich. The announcement comes as many countries, including Australia, Britain, France, and Canada said they would recognise a Palestinian state in September.

ASIA MATTERS

INDONESIA

BAR ON ILLEGAL GOLD MINING IN SULAWESI

Indonesia's government has halted illegal gold mining operations and seized two excavators from a limited production forest in Bolano Lambunu sub-district, Parigi Moutong district, Central Sulawesi. "This enforcement action was our swift response to public reports on unlicensed gold mining using heavy excavators that damaged forest areas in Central Sulawesi," Ali Bahri, head of the Sulawesi Forestry Law Enforcement Office, said on Thursday. He emphasized the urgency of the measure, noting that the area had recently suffered a flash flood

SMUGGLING: LENS ON 5 ARMY OFFICERS

The Magistrate's Court on Thursday issued remand orders against 10 individuals, including five senior Malaysian Armed Forces (MAF) officers, to assist the Malaysian Anti-Corruption Commission's (MACC) investigation into a smuggling syndicate operating in the country's south

THAILAND

CHINA OFFERS MEDIATION IN BORDER ROW

Beijing offered to help Thailand and Cambodia patch up relations on Thursday in the wake of fissures in the ceasefire deal of July. Clashes have stopped since the ceasefire but several Thai soldiers have been wounded by landmine blasts, keeping tensions high. Beijing, Phnom Penh's main ally, has also been involved in mediation efforts. Chinese Foreign Minister Wang Yi met his Thai and Cambodian counterparts in Yunnan on Thursday. " The two sides can manage specific disputes and work hand in hand to tackle various global challenges," Wang said

Under new law, Pakistan can detain terror suspects

ISLAMABAD

PAKISTAN has amended its anti-terrorism law to augment the powers of security agencies and the armed forces to detain 'suspicious' individuals for up to three months.

The National Assembly passed an amendment to the Anti-Terrorism Act (ATA), 1997, to change Section 11 EEEE (preventive detention for inquiry). This power was initially provided by an amendment in 2014 to conduct preventive detention of individuals suspected of involvement in terrorism-related activities, but the amendment was subject to a sunset clause and expired after two years in 2016.

In November 2024, the government quietly introduced the bill in the National Assembly when Minister of State for Interior and Narcotics Control Tallal Chaudhry moved it, seeking to grant military and civil armed forces the authority to keep individuals facing terrorism charges in 'preventive' detention for up to three months.

The main opposition Pakistan Tehreek-e-Insaf party opposed the amendment, terming it against basic rights. PTI Chairman Barrister Gohar Ali Khan branded it a violation of 'fundamental human rights'.

"The Supreme Court said these laws were contrary to fundamental rights," Gohar said. "You cannot touch a single person in the world without a solid reason," Law Minister Azam Nazeer Tarar assured the House that this law would only be used in specific circumstances.

PTI and other opposition groups fear the law could be used to silence dissent. *PTI*

ALL FOR PEACE

Genshitsu Sen, tea master and pilot, dies at 102

TOKYO

GENSHITSU Sen, a former Kamikaze pilot trainee who later promoted peace as a grand master of the Japanese tea ceremony, has died, officials said Thursday. He was 102.

Sen had been hospitalized since falling and experiencing difficulty while walking in May. He died early Thursday after developing breathing trouble, Urasenke officials said.

As a survivor of Japan's wartime Kamikaze suicide program who saw many of his fellow pilots take off for one-way flights, Sen was a staunch antiwar advocate and promoted "peacefulness through a bowl of tea.""Serving tea brings peace to everyone," he said. "If everyone feels peaceful, there will be no war."

In this file pic, Genshitsu Sen performs a traditional Japanese tea ceremony –as a tribute to the dead – on the USS Arizona memorial at Pearl Harbour in Hawaii | AP

Sen became the 15th Grand Master of the Urasenke school of Japanese tea ceremony in 1964. As grand master, Sen performed the tea ceremony more than 300 times in 70 countries to promote the art of Chado, or the way of tea, and global peace, earning him the nickname "flying teamaster." He hosted tea ceremonies to pray for peace in milestone years.

Sen was born in 1923 in Kyoto. He was only 6 when he first took lessons to become a grand master. In 1941, the year he entered Doshisha University in Kyoto, Japan launched the war on the United States, and two years later he was among 100,000 students mobilized to fight.

In 1943, he was conscripted to the Imperial Navy and began training to be a Kamikaze pilot, but the war ended before he was deployed. *AP*

EU lends helping hand to wildfire-ravaged countries

BRUSSELS

THE EU said on Thursday it was working "non-stop" to support countries battling wildfires raging across European countries.

Extreme summer heat, which scientists say human-driven climate change is exacerbating, has fuelled blazes across the region including Greece, Portugal, Spain and the Balkans.

"We continue non-stop to work on the support of affected countries," EU spokeswoman Eva Hrncirova said.

"Fighting wildfires is mainly the task for the member states, but we are here to help them and to assist them with our civil protection mechanism," she added.

Spain on Thursday mourned its third wildfire death this week and Greece began beating back a blaze threatening its third-largest city Patras as an unrelenting heatwave stoked tinderbox conditions in southern Europe.

The fires have particularly scorched Spain, devouring almost 250,000 acres this year. Spanish authorities said one person battling flames in Castile and Leon had died, taking the toll to three after earlier fatalities there and near Madrid this week. *AFP*

PUBLIC NOTICE

My client intends to purchase the schedule property from its owner Mr. Rajan Palakkal, who had earlier purchased the same from Ms. N Madhavi Reddy, vide Sale Deed dated 28-03-2005, document no.BLN-1-60667-2004-05. Since certain discrepancies crept in the original sale deed dated 26-03-2004, document no.53227/2003-04 in favour of Ms. N Madhavi Reddy with regard to dimensions, the same was subsequently carried forward to the sale deed of present owner Mr. Rajan Palakkal. The same was rectified by a registered Deed of Declaration dated 02-08-2025, document No.GNR-1-03233-2025-26, thereby rectifying the dimensions.

My client intends to avail loan from SBI/any other financial institution/s by mortgaging the schedule property after purchase.

If any person/s or financial institutions have any objections claims, right, title, interest over the schedule property, may file their objections with the undersigned alongwith documentary proof within **FIFTEEN (15) DAYS** from the date of publication of this notice. Thereafter, he will proceed to complete the transaction without being liable for any claims put forth thereafter.

SCHEDULE

All that piece and parcel of the immovable property ie., Vacant Site bearing no.525, E-PID No.9734025209, Property No. 355/525, situated in M S Ramaiah North City, formed in survey numbers 118/1-2, 119, 120, 125/1-2, 125/3A-B, 125/4, 126/1-6, 127, 128/1A-1E, 128/2-3, 129/1-5, 130/1, 130/2, 134/1(p), 149 and 150 of Nagawara Village, Kasaba Hobli, Bangalore North Taluk, now comes within BBMP limits, Ward No.6-Thanisandra, Measuring East to West: 40 feet (12.19 mtrs) and North to South: 60 feet (18.29 mtrs) in all measuring 2400 sq feet / 222.97 sq mtrs, and bounded on:

East by : Site No.554
West by : Site No.524
North by : Road

PUBLIC NOTICE

This is to inform the general public that our client, **Mr. Hussain Hyderali** S/o. Haiderali Jeewabhi, has filed a Counter Claim in O.S. No.1454/2021, pending before the Court of the XI Additional City Civil and Sessions Judge, Bengaluru (CCH–8), seeking specific performance of an agreement concerning the below-described Schedule Property. The Hon'ble Court, by its Order dated 18.02.2025, has allowed I.A. No.7 filed by our client and has been pleased to grant an order of temporary injunction, thereby restraining the Plaintiffs in the suit, namely: (1) Smt. B. Susheela (2) Sri. Arun Srikumar and (3) Sri. Deepak Srikumar from "alienating, encumbering or creating third party rights over the suit schedule property, till disposal of the suit." However, it has come to the notice of our client that the above-named Plaintiffs, in willful disobedience of the Court's injunction order, and with the assistance of Mr. Habeeb Kalwani and Mr. Syed Ashfaq Farman, are actively attempting to alienate, lease, encumber, or otherwise create third-party rights over the Schedule Property. The general public is hereby cautioned and warned not to enter into any transaction whatsoever with the above-named individuals in relation to the Schedule Property. Any such transaction would be illegal and invalid in law and shall be carried out at the sole risk and consequence of the transacting party. Our client, who is in actual, physical possession of the Schedule Property, shall not be bound by any such unlawful/illegaltransactions. Any person acting in violation of the above order shall do so at their own peril and be liable for appropriate legal action shall be initiated for contempt, disobedience and invalidation of such transactions.

SCHEDULE PROPERTY
